

SOCIÉTÉ GÉNÉRALE CREDIT-LINKED NOTES

PRODUCT SUPPLEMENT

(To the Offering Memorandum dated May 23, 2022)

Payment or delivery of all amounts due and payable or deliverable under the Credit-Linked Notes is irrevocably and unconditionally guaranteed pursuant to a Guarantee issued by
Société Générale, New York Branch

We, Société Générale, a *société anonyme* incorporated in the Republic of France (the “**Issuer**”) may offer from time to time, pursuant to the offering memorandum dated May 23, 2022 (as supplemented and amended from time to time, the “**Offering Memorandum**”), and this product supplement (the “**Product Supplement**”), the Credit-Linked Notes (each, a “**Note**” and together, the “**Notes**”) as part of one or more series of notes, certificates or securities issued by us under the **Program** (as defined herein). The specific terms of each offering of Notes will be set forth in the applicable pricing supplement (the “**Pricing Supplement**”). You should read this Product Supplement, the Offering Memorandum, and the applicable Pricing Supplement carefully before investing in the Notes. If the terms described in this Product Supplement are different or inconsistent with those described in the Offering Memorandum, the terms described in this Product Supplement will govern the Notes. If the terms described in the applicable Pricing Supplement are different or inconsistent with those described herein or in the Offering Memorandum, the terms described in the applicable Pricing Supplement will govern the Notes.

General Terms of the Notes:

Payment at Maturity: If you hold your Notes to maturity (or Redemption), for each Note, you may receive a payment, which may or may not include the return of all or any portion of your initial investment, as specified in the applicable Pricing Supplement, subject to the credit risk of the Issuer and the Guarantor.

Early Redemption: Terms of specific Notes may permit or require early redemption, in full or in part, by the Issuer (“**Early Redemption**”), including but not limited to redemption as a result of the occurrence of a Credit Event in respect of a Reference Entity as determined by a Credit Derivatives Determinations Committee or the Calculation Agent, as the case may be. Unless otherwise specified in the applicable Pricing Supplement, you may not redeem the Notes prior to Redemption. The applicable Pricing Supplement will indicate the terms of Early Redemption (if any).

Redemption: For purposes of this Product Supplement, each of the maturity, accelerated maturity and/or Early Redemption of the Notes, as applicable, shall be referred to as a “**Redemption**.” The date of the Redemption may be specified as the “**Early Redemption Date**,” “**Accelerated Maturity Date**,” “**Maturity Date**” or another Redemption date in the Pricing Supplement (each, the “**Redemption Date**”).

Interest Payments: The applicable Pricing Supplement will specify whether the Notes are interest bearing, and if so, (i) the date on which interest will begin accruing, (ii) the rate(s) of interest, (iii) the Coupon Payment Date, (iv) the interest amounts and any applicable formula in determination thereof and (v) the interest determination dates and/or any other terms that may be relevant to interest payment determination.

Reference Entity(s): The principal and interest, if any, payable or deliverable under the Notes will be impacted by the occurrence of a Credit Event with respect to one or more reference entities specified in the applicable Pricing Supplement (each, a “**Reference Entity**”). Any Successor to the Reference Entity either (a) identified by the Calculation Agent pursuant to the definition of Successor on or following the Trade Date or (b) identified pursuant to a DC Resolution in respect of a Successor Resolution Request Date and publicly announced by the DC Secretary on or following the Trade Date if the Calculation Agent elects to rely on such announcement, shall, in each case, with effect from the Succession Date, be the Reference Entity for the purposes of the Notes.

Credit Events: The applicable Pricing Supplement will specify the Credit Events that will apply to the Reference Entity(s).

Credit Derivatives Determinations Committee: The Calculation Agent may rely on the determinations of a Credit Derivatives Determinations Committee, which include but are not limited to whether a Credit Event has occurred in respect of a Reference Entity. Determinations of a Credit Derivatives Determinations Committee (of

which the Issuer or its affiliates may be a member) will be binding on Noteholders if the Calculation Agent elects to apply such determinations for the purposes of the Notes.

Settlement Method: The applicable Pricing Supplement will specify the applicable Settlement Method and the applicable Fallback Settlement Method, if any. The Notes may be settled by Auction Settlement, Cash Settlement or Physical Settlement (each, as defined below).

Scheduled Maturity Date: The applicable Pricing Supplement will specify the Scheduled Maturity Date.

Denominations: Unless otherwise specified in the applicable Pricing Supplement, the Notes will be issued in denominations of \$1,000 (or the specified currency equivalent), and multiples of \$1,000 (or the specified currency equivalent) thereafter.

Notional Amount: Unless otherwise specified in the applicable Pricing Supplement, \$1,000 per Note.

Currency: Unless otherwise specified in the applicable Pricing Supplement, the Notes will be denominated in U.S. dollars.

Investor Eligibility: The applicable Pricing Supplement will specify the investor eligibility for the Notes issued thereunder.

Minimum Investment Amount and Minimum Holding: The Notes will be subject to the minimum investment amount and minimum holding set forth in the applicable Pricing Supplement.

Rating: Unless otherwise specified in the applicable Pricing Supplement, the Notes are not, and will not be, rated by any nationally recognized statistical rating organization. The Notes are securities in the same series as and have equal rights and obligations as investment grade rated notes and certificates issued by us under the Program.

Ranking: The Notes will be our direct, general, unconditional, unsecured and unsubordinated obligation and will rank *pari passu* without any preference among themselves and *pari passu* with all of our other unconditional, unsecured and unsubordinated obligations, except those mandatorily preferred by law.

Guarantee: The payment or delivery of all amounts due and payable or deliverable under the Notes is irrevocably and unconditionally guaranteed pursuant to the Guarantee (as defined in the Offering Memorandum) by Société Générale, New York Branch (the “**Guarantor**”).

Program: We intend to issue from time to time certificates, warrants or notes specified in the Offering Memorandum, including the Notes described herein (the “**Program**”).

Other terms: As specified in the section “**Definitions**” herein and, with respect to each offering of Notes, as specified in the applicable Pricing Supplement.

EACH CAPITALIZED TERM USED BUT NOT DEFINED HEREIN HAS THE MEANING ASCRIBED TO IT IN THE OFFERING MEMORANDUM.

The Notes involve risks not associated with an investment in ordinary debt securities. See “*Risk Factors*” beginning on page 2 of this Product Supplement and on page 13 of the Offering Memorandum. Additional Risk Factors may appear in the applicable Pricing Supplement.

("**ISDA**") (the "**2014 Credit Definitions**"), as well as the 2003 ISDA Credit Derivatives Definitions as amended by the 2005 Matrix Supplement and the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement, in each case as published by ISDA (the "**2003 Credit Definitions**").

In this Product Supplement, the applicable Pricing Supplement and the accompanying Offering Memorandum, "we," "us" and "our" refer to Société Générale, unless the context requires otherwise.

RISK FACTORS

The Notes are generally riskier than ordinary debt securities. This section of the Product Supplement describes some risks relating to the Notes. Additional risk factors are described in the applicable Pricing Supplement and the Offering Memorandum. You should carefully consider all of the information set forth herein, in the applicable Pricing Supplement and in the Offering Memorandum and whether the Notes are suited to your particular circumstances before you decide to purchase them.

The Notes are not principal protected

Unless otherwise specified in the applicable Pricing Supplement, the Notes will not be principal protected and therefore the amount of principal you receive at Redemption may be less than the amount of your initial investment. **As described further below, by investing in the Notes you face the risk of losing your entire investment.**

You must rely on your own evaluation of the merits as well as the risks of an investment in the Notes

In connection with your purchase of the Notes, we urge you to consult your own financial, tax and legal advisors as to the risks involved in an investment in the Notes and to investigate the Reference Entity(s) and not rely on our views in any respect. **You should make a complete investigation as to the merits of an investment in the Notes, including a thorough evaluation of any Reference Entity that is referenced in such Notes before making any investment decision.**

The Notes are subject to the credit risk of the Reference Entity(s) in addition to the credit risk of the Issuer and Guarantor

The payment of principal and interest, if any, on the Notes is contingent upon each Reference Entity's creditworthiness, and Noteholders will be exposed to credit default risk with respect to each Reference Entity in addition to credit risk with respect to us and the Guarantor.

If one or more Reference Entities experience a Credit Event during the Credit Protection Period, and the related Credit Event Notice is delivered or deemed delivered during the Notice Delivery Period, the Notes (other than Tranche Notes and Linear Basket Notes for which "Deferred Settlement" is specified to be applicable in the relevant Pricing Supplement) will be subject to mandatory redemption (which (i) may, depending on the settlement terms specified in the relevant Pricing Supplement, not occur until the Scheduled Maturity Date or later, and (ii) may be a partial redemption in the case of Linear Basket Notes for which "Deferred Settlement" is not applicable) in accordance with the applicable Settlement Method or, if a Fallback Settlement Event occurs, the applicable Fallback Settlement Method, at a price which may be at a considerable discount to par or may even be zero. In addition, interest, if specified in the Pricing Supplement as payable with respect to the Notes, will stop accruing on the Coupon Payment Date preceding the Event Determination Date (or the Issue Date if the Event Determination Date occurs prior to the first Coupon Payment Date), subject to certain exceptions in the case of Tranche Notes and Linear Basket Notes. In the case of Tranche Notes, such occurrence of a Credit Event and delivery or deemed delivery of a Credit Event Notice will result in a loss of tranche subordination and/or a writedown of the principal amount. In the case of Linear Basket Notes, interest may continue to accrue after such occurrence of a Credit Event and delivery or deemed delivery of a Credit Event Notice, but may be calculated on the basis of a reduced principal amount.

The Credit Event that is the subject of the Credit Event Notice does not have to be continuing on or after the date of the Credit Event Notice. Accordingly, Noteholders are exposed to credit risk with respect to the Reference Entity for Credit Events that may be cured or waived subsequent to their occurrence.

The Notes are subject to Issuer and Guarantor credit risk

The Notes are subject to our and the Guarantor's credit risk. Our ability to pay our obligations under the Notes is dependent upon a number of factors, including our and the Guarantor's actual or perceived creditworthiness, financial condition and results of operations. No assurance can be given, and none is intended to be given, that you will receive any principal payment or any interest payment (if applicable) at Redemption or otherwise.

The Notes are intended to be held to Redemption

You may receive less, and potentially significantly less, than the amount you originally invested if you sell your Notes in the secondary market (if any exists) prior to Redemption. You should be willing and able to hold your Notes until Redemption. Also see “*Risk Factors — There may be no secondary market for the Notes; potential illiquidity of the secondary market*” below.

The Notes are not registered securities and will not be listed on any securities exchange; transfer restrictions may apply

The Notes and the Guarantee are not registered under the Securities Act or under any state laws. The Notes are being offered pursuant to one or more exemptions from the registration requirements of the Securities Act. Restrictions may apply to any purported transfer of the Notes. Neither the SEC nor any state securities commission or regulatory authority has recommended or approved the Notes or the Guarantee, nor has any such commission or regulatory authority reviewed or passed upon the accuracy or adequacy of this Product Supplement, the Offering Memorandum or the applicable Pricing Supplement. The Notes will not be listed on an organized securities exchange or any inter-dealer quotation system. Please also read “*Risk Factors — The Notes and the Guarantee are not registered securities*” in the Offering Memorandum.

The Notes are not insured by any third parties

The Notes will be solely our and the Guarantor’s obligations, and no other third party entity (including, without limitation, the Reference Entity) will have any obligation, contingent or otherwise, to make any payments or deliveries with respect to the Notes.

You will receive neither further benefits nor additional payments relating to the Notes if we call or redeem the Notes prior to their scheduled maturity (automatically or otherwise)

The Issuer may redeem the Notes early if the Calculation Agent determines that an Additional Disruption Event has occurred. The terms of any particular issuance of Notes, as specified in the applicable Pricing Supplement, may also permit or require Early Redemption by us (automatic or otherwise). If the Notes are redeemed or called by us prior to their scheduled maturity, in full or in part, you may be subject to reinvestment risk, whereby it is likely that you will not be able to invest in securities with similar risks, terms and yield as the Notes as originally issued.

Moreover, in the event of an Early Redemption of the Notes, in full or in part, you will cease to benefit from the features of the Notes to the extent that such Notes are redeemed early. You will receive no further benefits or payments under the Notes after such Notes have been redeemed in full.

The market value of the Notes will be influenced by many unpredictable factors

A number of factors, many of which are beyond our control, will influence the value of the Notes, including but not limited to:

- the actual or perceived creditworthiness and credit ratings of a Reference Entity and any guarantors or other supporters of the Reference Entity’s obligations;
- expected rates of recovery on obligations of a Reference Entity;
- the nature of a Reference Entity’s outstanding indebtedness, including its maturity and subordination structure and any guarantees or other support that the Reference Entity has provided to other entities;
- actions of a Reference Entity and its principal creditors;
- economic, financial, political, regulatory or judicial events that affect any Reference Entity or the Issuer or Guarantor and the markets for the debt securities of each Reference Entity or the Issuer or Guarantor;

- technical factors affecting pricing in the credit default swap market;
- the Issuer's and Guarantor's creditworthiness;
- interest rates and yields in the market; and
- in the case of First-to-Default Notes and Tranche Notes, correlation among the credit spreads and/or default probabilities of the Reference Entities.

Some or all of these factors will influence the price received if Noteholders are able to sell their Notes in the secondary market (if any exists) prior to Redemption.

There may be no secondary market for the Notes; potential illiquidity of the secondary market

The Notes are most suitable for purchase and holding until Redemption. The Notes will be new securities for which currently there is no trading market. We do not intend to apply for listing of the Notes and therefore the Notes will not be listed or quoted on any exchange. We cannot assure you as to whether there will be a secondary market for the Notes or, if there were to be such a secondary market, that it would be liquid.

In addition, investors might not purchase the Aggregate Notional Amount of the Notes being offered, and one or more of our affiliates may agree to purchase any unsold portion in accordance with our internal policies and procedures relating to inventorying of securities. Such affiliate's or affiliates' holding of the Notes may affect the supply of the Notes available in any secondary market trading and therefore may adversely affect the liquidity and price of the Notes in any such secondary market trading. If a substantial portion of any Notes held by our affiliates were to be offered for sale following this offering, the market price of such Notes could fall, especially if secondary market trading in such Notes is limited or illiquid (which is likely to be the case).

Under ordinary market conditions, SGAS, as a Dealer distributing the Notes, may maintain a secondary market in the Notes; however, none of the Issuer, SGAS or any other Dealer has any obligation to provide a secondary market in the Notes. The Issuer and SGAS may cease participating in the secondary market at any time, in their sole discretion. Accordingly, we cannot assure you as to the development or liquidity of any secondary market for the Notes. If none of the Issuer, SGAS or any other Dealer makes or maintains a secondary market in the Notes, you may not be able to sell your Notes easily or at prices that will provide you with a yield comparable to that of similar securities that have a liquid secondary market.

The Notes will be subject to Credit Events that occur prior to the issuance of the Notes

The Credit Protection Period for the Notes starts on the Credit Event Backstop Date. Accordingly, the Noteholder will be exposed to the risk of the occurrence of any Credit Event after the applicable Credit Event Backstop Date, even if it occurs prior to the Issue Date, which may be several weeks after the Credit Event Backstop Date. If the Reference Entity suffers a Credit Event after the Credit Event Backstop Date and prior to the Issue Date, and a Credit Event Notice is properly delivered, which may occur before or after the Issue Date of the Notes, an Event Determination Date will occur with respect to such Notes (as well as a notional reduction in some cases), although such Notes may not be subject to

Redemption until the Scheduled Maturity Date or later, depending on the settlement terms specified in the relevant Pricing Supplement. No interest will accrue on such Notes (or portion of such Notes) from the Coupon Payment Date preceding the Event Determination Date (or the Issue Date if such Event Determination Date occurs prior to the first Coupon Payment Date), and you may lose all or part of your investment. You should therefore carefully investigate each Reference Entity and its financial condition prior to investing in the Notes. See also "*Risk Factors — Credit default risk with respect to the Reference Entity(s) in addition to credit risk with respect to the Issuer and Guarantor*" above.

The Calculation Agent will have the authority to make determinations that could affect the Cash Settlement Amount or Deliverable Obligations, as the case may be

The Calculation Agent will have discretion in making various determinations that affect the Notes, including, without limitation, the determination of the occurrence of a Credit Event, the occurrence of a Potential Failure

to Pay, the occurrence of a Potential Repudiation/Moratorium, the currency exchange rate applicable to Deliverable Obligations denominated in foreign currencies, identification of successor Reference Entities (in accordance with the definition of Successor), Deliverable Obligations that the Issuer intends to deliver (in accordance with this Product Supplement), the market value of any Deliverable Obligations that the Issuer is unable to deliver, the selection of Valuation Obligations for valuation purposes, the obtaining of quotations in respect of such obligations and the appropriate adjustment to account for an Additional Disruption Event. The exercise of this discretion by the Calculation Agent could adversely affect the amount in cash, if any, that will be paid to you at Redemption in respect of any Notes or the market value of any Deliverable Obligations delivered to you by the Issuer.

Delay to the Scheduled Maturity Date

If we deliver a Credit Event Notice to the Paying Agent during the Notice Delivery Period or if we deliver an Extension Notice to the Paying Agent on or prior to the last day of the Credit Protection Period, final payment of principal, interest and/or final Delivery of Deliverable Obligations on the Notes may be delayed. Such delay could continue for a substantial period of time and maturity of the Notes could be postponed until significantly after the Scheduled Maturity Date, and no additional compensation (including any interest) will be paid to Noteholders for any period after the Coupon Payment Date immediately prior to the Event Determination Date (in the case that a Credit Event Notice is delivered) or the Scheduled Maturity Date (in the case that an Extension Notice is delivered), as applicable.

Noteholders should also be aware that following the occurrence of a Credit Event Resolution Request Date in respect of a Reference Entity, any obligation of the Issuer to redeem or otherwise settle any Notes or pay or deliver an amount in respect thereof may be suspended pending resolution of the relevant request.

2014 ISDA Credit Derivatives Definitions

While there are many similarities between the 2014 Credit Definitions and the terms used in this Product Supplement and the applicable Offering Memorandum, there are many substantial differences between the 2014 Credit Definitions and this Product Supplement and the Offering Memorandum. A prospective investor should understand that the complete terms and conditions of the Notes are as set out in this Product Supplement and the applicable Pricing Supplement and that neither the 2003 Credit Definitions nor the 2014 Credit Definitions are incorporated by reference herein. Consequently, investing in the Notes is not necessarily equivalent to entering into a credit derivative transaction that incorporates either the 2003 Credit Definitions or the 2014 Credit Definitions.

While ISDA has published and, where appropriate, supplemented the 2003 Credit Definitions and the 2014 Credit Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 Credit Definitions and the terms applied to credit derivatives generally, including the Notes, are subject to further evolution. Past events have shown that the view of market participants may differ as to how the 2003 Credit Definitions and the 2014 Credit Definitions operate or should operate. As a result of the continued evolution of the market, the Notes may not conform to future market standards. Such a result may have a negative impact on the Notes and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favorable to the Issuer or the Noteholders.

Differences between the 2003 Credit Definitions and the 2014 Credit Definitions

As noted above, the terms of this Product Supplement have been drafted to include many of the concepts and methodologies that are included in the 2014 Credit Definitions; this Product Supplement has not been drafted to track the 2003 Credit Definitions. A prospective investor who has previously entered into credit derivative transactions on the 2003 Credit Definitions and/or credit-linked notes based on the 2003 Credit Definitions should be aware that there are a number of important differences between the 2003 Credit Definitions and the 2014 Credit Definitions. The 2014 Credit Definitions have:

- (a) introduced a new Credit Event of “Governmental Intervention” for Financial Reference Entities, which is intended to capture “bail-in” procedures to which financial institutions may be subject;

- (b) made certain amendments to the Restructuring Credit Event to provide for the possibility of a euro exit;
- (c) reduced the number of buckets applicable in circumstances where Mod Mod R is applicable and deleted the concept of the “Enabling Obligation” which was previously applicable to both Mod R and Mod Mod R;
- (d) introduced the concept of Asset Package Delivery in respect of certain Financial Reference Entities and Sovereign Reference Entities, such that if Deliverable Obligations of such Reference Entities are exchanged into assets which do not constitute Deliverable Obligations or are written-down in part or in full, in certain circumstances, a credit protection buyer, such as the Issuer, will be able to deliver or value the resultant package of Assets or the written-down Deliverable Obligation to realize its protection;
- (e) split credit protection between senior and subordinated coverage in respect of a Governmental Intervention and Restructuring Credit Event for Financial Reference Entities, *e.g.*, a Senior Transaction will only be triggered by a Restructuring or Governmental Intervention of a Senior Obligation and a Subordinated Transaction will not be capable of being triggered by a Restructuring or Governmental Intervention of an obligation which is Subordinated to the Subordinated Reference Obligation;
- (f) made a number of changes to the provisions for determining a Successor to a Reference Entity, particularly with respect to Financial Reference Entities and Sovereign Reference Entities;
- (g) provided for a new election of “Standard Reference Obligation” which, unless disapplied in the relevant Pricing Supplement, will mean that the Reference Obligation will be the obligation published in respect of the relevant Reference Entity on an SRO List maintained by ISDA. A transaction on the terms of the 2014 Credit Definitions may elect not to apply that election such that the Reference Obligation would remain as specified in the Pricing Supplement, although, if this is the case, the procedure for selecting a Substitute Reference Obligation has also changed significantly in the 2014 Credit Definitions;
- (h) removed the Not Contingent Deliverable Obligation Characteristic and introduced a new definition for the concept of Outstanding Principal Balance. In order for an obligation (including the Reference Obligation) to constitute a Deliverable Obligation, it must have an Outstanding Principal Balance greater than zero;
- (i) amended the definition of “Qualifying Guarantee” to expand the universe of guarantees that can constitute Qualifying Guarantees (with a particular emphasis on including, to some extent, guarantees with caps or transfer provisions); and
- (j) introduced a large number of technical and other changes.

These changes in the 2014 Credit Definitions as compared to the 2003 Credit Definitions have been reflected in this Product Supplement, but in each case subject to important differences, including to reflect the nature of the Notes as compared to “over-the-counter” transactions and to reflect any hedging arrangements the Issuer may put in place. Some changes, such as the application of a new Credit Event, may have significant economic effect on the Notes and may mean the value of the Notes and the return (if any) to investors is significantly different from credit linked notes referencing the same Reference Entity described in other product supplements. Some changes may be disadvantageous to Noteholders and prospective investors should review carefully the terms of any issue of Notes (including the definitions used in this Product Supplement) and, where in any doubt, take advice from suitably qualified professional advisers.

Risks related to Auction Settlement

If the applicable Pricing Supplement specifies that Auction Settlement is applicable, then the relevant Final Price will be determined in accordance with Auction Settlement; however, if, among other things, ISDA does not sponsor an Auction or if the Auction is considered abandoned, the Notes will be redeemed in whole or in part (or, in the case of Tranche Notes, Loss Amounts determined) in accordance with the Fallback Settlement Method specified in the applicable Pricing Supplement.

Credit losses determined pursuant to a market auction process may be greater than the losses which would have been determined in the absence of the Auction. In particular, the auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a third party. None of the Calculation Agent, the Issuer, the Guarantor or any of their respective affiliates has any responsibility for verifying that any Auction has been conducted in accordance with its rules. If the Issuer, the Guarantor or any of their respective affiliates participates in an Auction, then it will do so without regard to the interests of the Noteholders of the Notes. Such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the Notes. Where the terms of any Notes state that "Mod R" or "Mod Mod R" is applicable in respect of a Reference Entity and the only relevant Credit Event is a Restructuring, several concurrent but separate Auctions may occur with respect to such Reference Entity and such Credit Event. The Auction Settlement Amount may be based on the price of one or more obligations of the Reference Entity having a final maturity date different from the Restructured Bond or Loan.

In certain circumstances (for example, where ISDA does not sponsor an Auction or the Auction is considered abandoned, Physical Settlement is the Fallback Settlement Method and the Issuer is unable to Deliver any relevant Deliverable Obligations), a pro rata proportion of the market value of such Deliverable Obligations which are not Delivered will be paid in cash in respect of each Note, which may be significantly less than the Aggregate Notional Amount of any Notes or may even be zero.

If ISDA sponsors an Auction, the Notes will not be redeemed in whole or in part (or, in the case of Tranche Notes, Loss Amounts will not be determined) until the Settlement Date occurs for market credit derivative transactions that are the subject of that Auction. Such Settlement Date may not occur for a significant period of time. Settlement may be further delayed if the Credit Derivatives Determinations Committee elects to abandon the Auction in accordance with the DC Rules.

Risks related to Cash Settlement

If the applicable Pricing Supplement specifies that Cash Settlement is applicable, or if a Fallback Settlement Event has occurred and Cash Settlement is the applicable Fallback Settlement Method, then, following the occurrence of a Credit Event and the delivery of a Credit Event Notice, the Calculation Agent will be required to seek quotations in respect of selected Valuation Obligations of the Reference Entity. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the relevant Reference Entity, such as liquidity constraints affecting market dealers. Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation as determined by reference to the present net value of related cashflows. If the Calculation Agent is unable to obtain two (2) or more quotations for a Valuation Obligation on the same Business Day within five (5) Business Days of the Valuation Date, then the Final Price will be determined by the Calculation Agent in its commercially reasonable discretion.

Risks related to Physical Settlement

If the applicable Pricing Supplement specifies that Physical Settlement is applicable, or if a Fallback Settlement Event has occurred and Physical Settlement is the applicable Fallback Settlement Method, the Issuer will Deliver one or more Deliverable Obligations meeting the criteria set forth in the applicable Pricing Supplement to the Noteholders of the Notes in lieu of a cash payment. Such Deliverable Obligations will have an aggregate outstanding principal balance equal to the outstanding principal amount of the Notes, rounded down to the nearest whole unit of each Deliverable Obligation and net of certain costs and fees. However, because the relevant Reference Entity has experienced a Credit Event, it is likely that the Deliverable Obligations will be worth considerably less than the outstanding principal amount of the Notes and, in some cases, may have little

or no value. The Deliverable Obligations that the Issuer intends to Deliver will be specified in the Notice of Physical Settlement. The Calculation Agent may amend or correct a Notice of Physical Settlement at any time up to and including the Delivery Date.

If (i) the Calculation Agent determines, in its sole discretion, that it is impossible or illegal to Deliver a Deliverable Obligation specified in the Notice of Physical Settlement, (ii) the Issuer has not received obligations equivalent to the Deliverable Obligations specified in the Notice of Physical Settlement from a hedging counterparty for any reason, (iii) a consent required for Delivery to the Noteholders has not been obtained or (iv) any holder of a beneficial interest in the Notes has failed to deliver a blocking instruction required for Delivery of Deliverable Obligations (or any other documentation requested by the Issuer in order to comply with securities laws or other transfer restrictions applicable to any Deliverable Obligation), then the Noteholder may not receive such Deliverable Obligations on the Initial Credit Event Delivery Redemption Date. Instead, the Issuer may wait for up to sixty-five (65) Business Days after the Initial Credit Event Delivery Redemption Date before it Delivers such Deliverable Obligations, and if on such date it has not Delivered or still cannot Deliver such Deliverable Obligations, the Issuer will, in lieu of Delivering such Deliverable Obligations, pay an amount per Note equal to the pro rata proportion of the market value of such Deliverable Obligations which are not Delivered in cash on a date no later than the tenth (10th) Business Day after the value of all such Deliverable Obligations which are not Delivered has been determined by the Calculation Agent.

Where Physical Settlement is applicable, Noteholders will only be able to transfer the Deliverable Obligations they receive to the extent consistent with the relevant exemptions from the registration requirement of the Securities Act, applicable transfer restrictions and/or the terms of the Deliverable Obligations. Such restrictions may limit the marketability and value of any such Deliverable Obligations. Consequently, you may be required to bear the risk of an investment in such Deliverable Obligations for an indefinite period of time.

We may sell the Notes through our affiliate, SGAS; Potential conflict of interest

The Notes may be sold through our affiliate, SGAS, by appointment of SGAS as the principal agent for the sale of the Notes. SGAS and the Issuer are under common control and SGAS is not an underwriter that is independent from the Issuer. A conflict of interest may exist or arise with respect to the offering and sale of the Notes by SGAS to investors because an independent underwriter is not participating in the pricing of the Notes to investors.

Additionally, we may pay SGAS an underwriting fee and, similarly, if SGAS distributes the Notes to or through other broker-dealers or banks, we, SGAS or one of our affiliates may pay such other broker-dealers or banks a fee in connection with their distribution of the Notes. SGAS has discretion to determine the amount of fees paid to such other broker-dealers or banks, and may change them from time to time. Because such fees may negatively impact your investment in the Notes, SGAS's interests with respect to the Notes may be adverse to yours.

For more information about distribution of the Notes and related commissions, see the section "*Supplemental Plan of Distribution*" in this Product Supplement.

The inclusion of commissions and projected profit from hedging in the original price is likely to adversely affect secondary market prices

Assuming no change in market conditions or any other relevant factors, the price, if any, at which we, the applicable Dealer or one or more of our or its respective affiliates may be willing to purchase the Notes in secondary market transactions will likely be lower than the price at which you purchased the Notes. This is because such price included, and secondary market prices are likely to exclude, commissions paid with respect to the Notes, as well as the projected profit included in the cost of hedging our obligations under the Notes. In addition, any such prices may differ from values determined by pricing models used by us, the applicable Dealer or one or more of our or its respective affiliates, as a result of dealer discounts, mark ups or other transaction costs.

If the Notes are accelerated due to our insolvency, you may receive an amount substantially less than the Notional Amount of the Notes

The amount you receive from us or the Guarantor as payment on the Notes if the Notes are accelerated due to an event of default may be substantially diminished (and could be zero) if such an acceleration is due to our or the Guarantor's insolvency and/or we or the Guarantor are not able to make such payment under applicable bankruptcy laws. Also see "*Risk Factors — Your return may be limited or delayed by the insolvency of Société Générale*" in the Offering Memorandum.

Certain business activities may create conflicts with your interests

We, the Guarantor, the applicable Dealer or one or more of our or their respective affiliates, may engage in trading and other business activities relating to a Reference Entity that are not for your account or on your behalf. These activities may present a conflict between your interest in the Notes and interests we, the Guarantor, the applicable Dealer and/or one or more of our or their respective affiliates, may have in our or their proprietary account and could have an adverse effect on the Notes. Such activities may include, among other things, the exercise of voting power, financial advisory relationships, publication of research, financing transactions, derivative transactions and the exercise of creditor rights, each of which may be contrary to your interests. Any of these trading and/or business activities may affect actual or perceived creditworthiness of a Reference Entity, and thus could be adverse to your return (if any) on the Notes. We, the Guarantor, the applicable Dealer and our or their respective affiliates may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on the Notes and the Noteholders.

We, the Guarantor, the applicable Dealer and/or one or more of our or their respective affiliates, may also issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns linked to the credit risk of one or more Reference Entities. By introducing competing products into the marketplace in this manner, we, the Guarantor, the applicable Dealer and/or our or their respective affiliates could adversely affect the value of the Notes.

In addition, to the extent applicable, we, the Guarantor, the applicable Dealer and/or one or more of our or their respective affiliates may, at present or in the future, engage in business with the Reference Entity, including purchasing debt or equity securities of or making loans to those companies or providing investment banking, asset management or other advisory services to those companies. These activities may present a conflict between your interests as Noteholders and the interests of the Issuer, the Guarantor, the applicable Dealer and/or our or their respective affiliates.

In the ordinary course of business, we, the Guarantor, the applicable Dealer and/or one or more of our or their respective affiliates may effect transactions for the account of customers and hold long or short positions with respect to one or more Reference Entities or related derivatives; enter into one or more hedging transactions with respect to one or more Reference Entities or related derivatives; and/or in connection with such hedging or market-making activities or with respect to proprietary or other trading activities, enter into transactions with respect to one or more Reference Entities or related derivatives which may adversely (or positively) affect the price, liquidity or value of the relevant Notes and which could therefore be adverse to the interests of the relevant Noteholders.

The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Noteholders

As the Calculation Agent will generally be us, the Guarantor or an affiliate of us or the Guarantor, potential conflicts of interest may exist between the Calculation Agent and the Noteholders, including with respect to the exercise of the very broad discretionary powers of the Calculation Agent. For example, the Calculation Agent has the authority (i) to determine whether certain specified events and/or matters so specified in the conditions relating to the Notes have occurred and (ii) to determine any resulting adjustments and calculations or substitutions as described in such conditions. Potential purchasers should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Notes. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest or proven error) shall be binding on the Issuer and all Noteholders.

The Issuer and/or the Guarantor may have confidential information relating to the Reference Entity and the Notes

In the course of business, we, the Guarantor, the applicable Dealer and/or one or more of their respective affiliates may, by virtue of our or their status as underwriter, advisor or otherwise, acquire, possess or have access to non-public information about one or more Reference Entities, the Notes and any derivative transactions referencing them. We, the Guarantor, the applicable Dealer and our and their respective affiliates have no obligation to disclose such information.

The Calculation Agent's Choice of Deliverable Obligations or Valuation Obligations may increase Noteholders' losses

Where Physical Settlement or Cash Settlement is applicable, upon the occurrence of a Credit Event and the delivery of the Credit Event Notice (and, in the case of Physical Settlement, also the Notice of Physical Settlement) the Calculation Agent has the discretion to choose the Deliverable Obligations to be delivered to Noteholders if Physical Settlement applies and the Valuation Obligations to be valued if Cash Settlement applies. You should assume that the Deliverable Obligations and the Valuation Obligations selected by the Calculation Agent will be Deliverable Obligations and Valuation Obligations of the Reference Entity with the lowest market value that are permitted to be delivered or valued pursuant to the terms of the Notes. This could result in a lower recovery value and hence greater losses for investors in the Notes.

Bid/offer spreads

Where the Notes are redeemed in whole or in part (or, in the case of Tranche Notes, Loss Amounts determined) by reference to quotations obtained by the Calculation Agent in respect of a portfolio of Valuation Obligations, you should note that such quotations will be subject to prevailing bid-offer spreads, which may be significant in distressed markets and could therefore adversely affect your payout at Redemption.

Noteholders (in their capacity as holders of the Notes) will not be able to refer questions to the Credit Derivatives Determinations Committees

The Noteholders, in their capacity as holders of the Notes, will not have the ability to refer questions to a Credit Derivatives Determinations Committee since the Notes are not a credit derivative transaction for purposes of the 2014 Credit Definitions or the 2003 Credit Definitions and the Notes do not incorporate and are not deemed to have incorporated the DC Rules. As a result, Noteholders will be dependent on other market participants to refer specific questions to the Credit Derivatives Determinations Committees that may be relevant to the Noteholders. The Calculation Agent has no duty to the Noteholders to, and does not intend to, refer specific Noteholder questions to the Credit Derivatives Determinations Committees.

Noteholders will have no role in the composition of the Credit Derivatives Determinations Committees

Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Noteholders will have no role in establishing or enforcing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the DC Rules, as the term of a member institution may expire or a member institution may be required to be replaced. The Noteholders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Notes, will be subject to the determinations made by such selected institutions in accordance with the DC Rules.

Potential conflicts of interest due to the involvement of the Calculation Agent with the Credit Derivatives Determinations Committees

Since, as of the Issue Date, the Calculation Agent (or one of its affiliates) is a consultative member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the DC Rules, it may take certain actions, including participating in Auctions, which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. Such action may be adverse to the interests of the Noteholders and may result in an economic benefit accruing

to the Calculation Agent or its affiliates. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the DC Rules, the Calculation Agent shall have no obligation to consider the interests of the Noteholders and may ignore any conflict of interest arising due to its responsibilities under the Notes.

Noteholders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or any external reviewers

Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the DC Rules, except in the case of gross negligence, fraud or willful misconduct. Furthermore, the member institutions of the Credit Derivatives Determinations Committees from time to time will not owe any duty to the Noteholders, and the Noteholders will be prevented from pursuing legal claims with respect to actions taken by such member institutions under the DC Rules. Noteholders should also be aware that member institutions of the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Noteholders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees

Notices of questions referred to the Credit Derivatives Determinations Committees, meetings convened to deliberate such questions and the results of binding votes of the Credit Derivatives Determinations Committees will be published on the website of the International Swaps and Derivatives Association, Inc. and neither the Issuer, the Calculation Agent nor any of their respective affiliates shall be obliged to inform the Noteholders of such information (other than as expressly provided in the terms of the Notes). Failure by the Noteholders to be aware of information relating to determinations of a Credit Derivatives Determinations Committee will have no effect under the Notes and Noteholders are solely responsible for obtaining any such information.

No Noteholder rights with respect to a Reference Entity

We have no ability to control or predict the actions of any Reference Entity, including actions that could affect the value of the Notes. None of the money you pay us will go to any Reference Entity, such Reference Entity will not be involved in the offering of the Notes in any way, and such Reference Entity will not have any obligation to consider your interest as a Noteholder in taking any actions that might affect the value of the Notes. As a Noteholder, you will not have voting rights, rights to receive distributions or any other rights with respect to the obligations of such Reference Entity.

Actions of Reference Entities may adversely affect the value of the Notes. The views of market participants and/or legal counsel may differ as to how standard market terms for credit derivative transactions should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of Noteholders. No Reference Entity will have any obligation to consider your interest as a Noteholder as to any corporate or sovereign actions that might affect the value of the Notes.

No replacement of a Reference Entity to avoid Credit Events or determination of a Successor

The terms of the Notes do not provide for replacement of a Reference Entity to avoid Credit Events or the determination of a Successor. Consequently, the occurrence or increased likelihood of Credit Events may adversely affect your investment in the Notes, including a reduction, potentially to zero, in the amount payable to you upon Redemption of the Notes, the value of the Notes in secondary market trading (if any exists), loss of tranche subordination (in the case of Tranche Notes), cessation or suspension of interest accruals and/or other adverse consequences described herein following the occurrence of an Event Determination Date. Similarly, any determination of a Successor that occurs with respect to a Reference Entity on or after the Successor Backstop Date may change the probability (actual or perceived) of the occurrence of a Credit Event, which may adversely impact your investment in the Notes. Therefore, you should not invest in the Notes unless

you are comfortable with the creditworthiness of the applicable Reference Entity(s) and the likelihood of the occurrence of a Credit Event and/or the determination of a Successor with respect to such Reference Entity(s).

The determination of a Successor may result in different or additional Reference Entities

If an entity other than the Reference Entity (i) assumes or becomes liable for Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues bonds or incurs loans that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such resulting bonds or loans, as applicable, the Calculation may determine a Successor and the Reference Entity may change. As a result, the Notes may reference substantially different, and potentially greater, credit risks following the determination of a Successor.

Limited provision of information about a Reference Entity

The occurrence of an Event Determination Date with respect to a Reference Entity will result in a reduction, potentially to zero, in the amount payable to you upon Redemption of the Notes, loss of tranche subordination (in the case of Tranche Notes), cessation or suspension of interest accruals and/or other adverse consequences described herein. Consequently, you should conduct your own investigation and analysis with respect to the creditworthiness of the relevant Reference Entity(s) and the likelihood of the occurrence of a Credit Event and an event that might result in the determination of a Successor.

As of the Issue Date, the financial and other information with respect to the relevant Reference Entity(s) may be available from publicly available sources. Neither we, the Guarantor nor any of our or its respective affiliates make any representation as to the accuracy, completeness or timeliness of any information available with respect to such Reference Entity(s). We have not made nor will we make any “due diligence” investigation or any inquiry with respect to any Reference Entity in connection with the offering of the Notes. Furthermore, with respect to each offering of Notes, we do not know whether all events relating to the Reference Entity(s) occurring before the Issue Date have been publicly disclosed. Events concerning a Reference Entity that occurred prior to the Issue Date but that only become publicly known after the Issue Date or events concerning a Reference Entity that occur after the Issue Date, whether or not they become publicly known, could adversely affect your investment in the Notes. We, the Guarantor and our respective affiliates will have no obligation to keep Noteholders informed as to any matters with respect to the Reference Entity(s) or any of its or their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or the determination of a Successor with respect to any Reference Entity.

We, the Guarantor and/or any of their respective affiliates, including the Calculation Agent, whether by virtue of the types of relationships described above or otherwise, may at any time be in possession of information relating to a Reference Entity or any of its affiliates that is or may be material in the context of the Notes and that may or may not be publicly available or known to the Noteholders. Except for the Offering Memorandum, information contained herein or in the Pricing Supplement, none of the Issuer, the Guarantor or their respective affiliates, including the Calculation Agent, will have any obligation to disclose any such information (including without limitation any information or evidence regarding the existence or terms of any obligation of the Reference Entity or otherwise regarding such Reference Entity, any guarantor or any other person), whether or not confidential, to the Noteholders. Where permitted to do so, the Calculation Agent may base its determinations on such information without disclosing such information to the Noteholders. You will not have the right to inspect any of our records or any records of our affiliates.

A Credit Event may occur at any time during the Credit Protection Period. An Event Determination Date generally will occur when we deliver a Credit Event Notice to the Paying Agent. We may notify the Paying Agent of the occurrence of a Credit Event at any time during the Notice Delivery Period. The Paying Agent will then give notice to Noteholders through the clearing system of the occurrence of an Event Determination Date. We will not be liable for failure by the Paying Agent or the clearing system to provide notice to Noteholders.

Emerging market Reference Entities

Prospective investors in Notes that are linked to sovereign or corporate Reference Entities in emerging market jurisdictions should note in particular that emerging market economies may be particularly volatile, including as a result of reliance on a limited number of commodity markets, exposure to levels of consumer or industrial demand in developed or other emerging market economies, capital inflows and outflows, currency exchange rates, corruption, political risk or civil unrest. Publicly available information, including official statistics, may be incorrect, incomplete or misleading. In addition, the ability of an emerging market Reference Entity to meet payments on its debt obligations as they fall due may be highly dependent on, among other things, the production and prevailing price of commodities for export, and movements in relevant exchange rates. Accordingly, the risk of the occurrence of a Credit Event may be particularly high in relation to such Reference Entities.

Credit spread basis risk

As credit spreads widen for a Reference Entity, the value of debt securities issued by the Reference Entity will generally decline. Conversely, as credit spreads tighten for a Reference Entity, the value of its debt securities will generally increase. Changes in the value of the Notes as a result of changing credit spreads, to the extent the value of the Notes may be determined, may be less favorable to you than the corresponding changes in the value of debt securities of a Reference Entity with a maturity equal to the Scheduled Maturity Date of the Notes.

Increased risks associated with certain First-to-Default, Linear Basket or Tranche Notes

First-to-Default Notes will be subject to Redemption in full upon the occurrence of a Credit Event and the delivery of a Credit Event Notice with respect to any one Reference Entity in the portfolio of Reference Entities underlying the Notes. The credit risk to Noteholders with respect to such Notes and any Linear Basket or Tranche Notes may be increased, among other things, as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks. For example, if all of the Reference Entities have similar capital structures and are in a similar industry or geographical location, all such Reference Entities might be expected to experience financial difficulties and ultimately a Credit Event, at the same, or approximately the same, time upon the occurrence or non-occurrence of similar market events (e.g., an industry downturn). On the other hand, as the correlation between the default risk of the Reference Entities decreases (e.g., if economic conditions change such that the effect of such common factors diminishes), it becomes less likely that all of the Reference Entities will experience a Credit Event simultaneously, but relatively more likely that one of the Reference Entities will independently experience a Credit Event at any given time.

Changes in the constituents of a portfolio of Reference Entities, such as those that may occur following the determination of a Successor, may affect the level of default correlation among the Reference Entities in the portfolio and, therefore, the value of certain First-to-Default and Tranche Notes as well as the concentration risk associated with Linear Basket Notes. The dependence of the value of First-to-Default Notes and Tranche Notes on changes in correlation may be complex, and there may not be market consensus on the appropriate valuation models.

Additional risks related to Tranche Notes

Noteholders of Tranche Notes bear the risk that losses on a portfolio of Reference Entities will fall within the tranche defined by the Attachment Point and Detachment Point specified in the applicable Pricing Supplement. This position represents a leveraged exposure to credit risk since the size of the Reference Portfolio Notional Amount may be considerably larger than the Aggregate Notional Amount of the Tranche Notes. This position entails a high degree of risk (such that the Noteholder will suffer higher losses due to the settlement of Credit Events than those it would suffer in respect of an unleveraged position that referenced the entire portfolio of Reference Entities).

Noteholders of Tranche Notes will not receive any partial Early Redemption payments following the occurrence of an Event Determination Date during the Notice Delivery Period. Rather, such occurrence will result in a loss of tranche subordination and/or a writedown of the principal amount, possibly to zero.

Due to the more complex nature of Tranche Notes, and the potential higher risks involved with such an investment, any potential investors should ensure that they fully understand all of the mechanics of such Notes, including how the Attachment Point and Detachment Point will affect the value of the Notes, how losses on the applicable portfolio of Reference Entities falling below the Detachment Point will be determined and how they will affect the value and risk of your investment in the Notes, and all other associated risks.

Calculation Agent's powers to adjust terms of Notes in accordance with market convention without consent of Noteholders

Noteholders should note that the Calculation Agent may from time to time and at any time in its sole and absolute discretion, without obtaining the consent of or consulting with the Noteholders, adjust the terms of the Notes described in this Product Supplement and the applicable Pricing Supplement in accordance with any industry protocol, supplement, revised definitions or convention published by ISDA with respect to credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committees if and to the extent that the Calculation Agent determines that such protocol or convention would amend the terms of outstanding credit derivatives transactions that have a trade date that coincides with (or is earlier than) the Issue Date of the Notes and are of a type comparable to the credit-linked provisions of the Notes.

Legislative and regulatory risk

As part of global governmental and private sector efforts to stabilize and reform financial markets, changes in the regulation of persons who engage in derivatives transactions have been considered, proposed, adopted, and/or implemented. For example, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the **Dodd-Frank Act**) establishes a new regulatory framework for derivatives transactions. New requirements relating to capital, margin, registration, trading restrictions and myriad other aspects of engaging in derivatives transactions have been enacted and are being implemented, while others are still being formulated. It is anticipated that promulgation of new rules will be followed by periods in which the meaning and application of rules will be evolving. Further and unforeseeable changes may result. The regulatory changes and resulting requirements of the Dodd-Frank Act, the European Market Infrastructure Regulation, the Basel III framework and similar international reform efforts may limit or restrict, or increase the costs of, engaging in derivatives transactions, market-making and related activities, and such regulatory changes may adversely affect your investment in the Notes, either directly or through adverse effects on liquidity, valuations, or volatility in the markets for credit derivatives transactions comparable to the credit-linked provisions of the Notes.

DESCRIPTION OF THE NOTES

The following description of the terms of the Notes supplements the description of the general terms of the Notes set forth under the heading “Description of the Notes” in the Offering Memorandum. For the purposes of this “Description of the Notes,” the term “Note” refers to the Notional Amount per Note specified on the cover page hereof and in the applicable Pricing Supplement. The applicable Pricing Supplement describes the terms that apply specifically to the Notes offered, including any changes to the terms specified herein.

GENERAL TERMS

1. Types of Notes

Single Name Notes are linked to the credit risk of a single Reference Entity. First-to-Default Notes are linked to the credit risk of a basket of Reference Entities; the first occurrence of an Event Determination Date in relation to any one of such Reference Entities will affect the entire nominal or notional amount of a First-to-Default Note as if such Note were a Single Name Note with respect to such Reference Entity. Linear Basket Notes are linked to the credit risk of a basket of Reference Entities, with a portion of the nominal or notional amount of each Note, as described under “*Linear Basket Notes*” below, being at risk to each such Reference Entity. Tranche Notes are linked to the credit risk of a basket of Reference Entities; such Notes will incur principal writedowns to the extent that Event Determination Dates in relation to such Reference Entities result in Loss Amounts that exceed, in the aggregate, the applicable Tranche Subordination Amount. Other types of Notes may be issued from time to time and will be described in detail in the applicable Pricing Supplement.

2. Reference Entity(s)

The applicable Pricing Supplement will specify one or more Reference Entities. The Notes are exposed to the credit of the specified Reference Entity or Reference Entities as described in the applicable Pricing Supplement. If an Event Determination Date occurs in relation to a Reference Entity during the relevant Notice Delivery Period, the Notes will be subject to Redemption, settlement or reduction of principal in accordance with “*Redemption following Event Determination Date*” below. A Reference Entity may be replaced by one or more Successors as described under “*Successor Reference Entity*” below.

3. Reference Obligation(s)

A Reference Obligation is an obligation of a Reference Entity (which may be indirect, by way of a guarantee or an equivalent arrangement). The Reference Obligation will be the Standard Reference Obligation, if any, unless “Standard Reference Obligation” is specified as not applicable in the Pricing Supplement. The Seniority Level of the Reference Obligation (as specified in the Pricing Supplement) is also taken into account in determining the application of the “Not Subordinated” Obligation Characteristic and Deliverable Obligation Characteristic. The Calculation Agent may designate Substitute Reference Obligations as described under “*Substitute Reference Obligations*” below.

4. Calculation Agent

The Calculation Agent in its sole discretion will make all determinations relating to the Notes. Absent manifest error, all determinations of the Calculation Agent will be final and binding on the Issuer and the Noteholders, without any liability on the part of the Calculation Agent.

In exercising its rights and discretion related to the Notes (including making certain determinations, selections or elections), the Calculation Agent (in its sole discretion) may rely on the determinations of any Credit Derivatives Determinations Committees, including as to the occurrence of any Credit Event, Potential Failure to Pay, Potential Repudiation/Moratorium, Event Determination Date, Succession Date, Sovereign Succession Event or Substitution Event, as to the determination of any Deliverable Obligations and as to the identification of any Successor to a Reference Entity or Substitute Reference Obligation (each such term as defined below). The Calculation Agent will have no liability to the Issuer, the Noteholders or any other person in relation to such reliance or otherwise.

5. Final Payment

As a final payment on the applicable Redemption Date, the Noteholder will receive the amount due and payable or deliverable to it (if any) as specified in the applicable Pricing Supplement. Unless otherwise specified in the applicable Pricing Supplement, the amounts payable or deliverable as a final payment (if any) under the Notes have been specified for the Notional Amount per Note.

6. Payment at Redemption and Notice Prior to Payment

The final payment of the amount due to a Noteholder at Redemption will be made to the Noteholder in whose name the Note is registered in the security register of the Issuer on the applicable Redemption Date in immediately available funds. If in certificated form, the final payment will be made upon surrender of the Note at the office or agency of the Paying Agent (as defined in the Offering Memorandum), maintained for that purpose in the Borough of Manhattan, The City of New York, or at such other paying agency as the Issuer may determine.

The Issuer will provide a written notice to the Trustee and to the Depositary (as defined in the Indenture), no later than at 10:30 a.m. (New York time) on the day immediately prior to the applicable Redemption Date (but if such day is not a Business Day, prior to the close of business on the Business Day preceding the applicable Redemption Date), of the amount of cash or securities to be delivered with respect to the stated Notional Amount of each Note, and deliver such cash or securities to the Trustee for delivery to the Holders on the applicable Redemption Date.

Unless otherwise specified in the Pricing Supplement, all calculations with respect to the payment or delivery, if any, on the applicable Redemption Date to a Noteholder will be rounded to the nearest hundredth, with five one-thousandth rounded upward (e.g., 0.465 would be rounded up to 0.47), and all amounts paid or delivered on the Notional Amount of a Note will be rounded to the nearest cent, with one-half cent rounded upward.

7. Note Provisions to Control

If the terms described in this Product Supplement are different or inconsistent with those described in the Offering Memorandum, the terms described in this Product Supplement will govern the Notes. If the terms described in the applicable Pricing Supplement are different or inconsistent with those described herein or in the Offering Memorandum, the terms described in the applicable Pricing Supplement will govern the Notes.

8. Provisions Relating to Timing

For purposes of this Product Supplement, in order to determine the day on which an event occurs, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

9. Defined Terms

All capitalized terms used herein shall have the meaning set forth in the section entitled “*Definitions*” below. All terms used in a Note, which are defined in the Indenture and not otherwise defined herein, have the meanings assigned to them in the Indenture.

REDEMPTION AND DEFERRAL OF MATURITY

1. Redemption at scheduled maturity

If an Event Determination Date (as described in “*Event Determination Date*” below) in respect of any Reference Entity does not occur on or prior to the last day of the Notice Delivery Period, the Notes are not redeemed early as specified under “*Additional Disruption Events*” below, and the maturity of the Notes is not deferred in accordance with “*Extension of maturity*” below, then each Note will be redeemed by the Issuer with a cash payment to the Noteholder equal to the Notional Amount of such Note on the Scheduled Maturity Date specified in the applicable Pricing Supplement.

2. Extension of maturity

If an Event Determination Date in respect of any Reference Entity has not occurred on or prior to the Scheduled Credit Protection Period End Date but the Calculation Agent determines in its sole discretion that the Notice Delivery Period will be extended so as to expire after the Scheduled Maturity Date, then the Calculation Agent will send a notice (an “**Extension Notice**”) to the Paying Agent on or prior to the last day of the Credit Protection Period in order to defer the maturity of the Notes. In such case, if an Event Determination Date does not occur on or prior to the last day of the Notice Delivery Period, as extended, then the Notes will be redeemed at the amount specified in “*Redemption at scheduled maturity*” on the earlier of (i) the date falling five (5) Business Days following the expiry of the Notice Delivery Period and (ii) the Final Stated Maturity Date.

3. Redemption following Event Determination Date

Subject to “*Event Determination Date — Credit Event Notice after Restructuring Credit Event*,” “*Linear Basket Notes*” and “*Tranche Notes*” below, if an Event Determination Date occurs (or, if the Calculation Agent elects to rely on a DC Credit Event Announcement, is subsequently determined by a Credit Derivatives Determinations Committee to have occurred) during the Notice Delivery Period, then the Notes will be redeemed in accordance with the following:

(a) Auction Settlement

If the applicable Pricing Supplement specifies Auction Settlement as the Settlement Method in relation to a Reference Entity, then following an Event Determination Date and unless a Fallback Settlement Event occurs, each Note shall be redeemed by the Issuer with the payment of the Auction Settlement Amount to the Noteholders on the Auction Settlement Date.

(b) Fallback Settlement

If the Calculation Agent, in its sole discretion, determines that no relevant Auction Final Price will be determined in relation to the relevant Reference Entity, including following abandonment or cancellation of any auction or if the Calculation Agent elects not to treat any concurrent auction as an Auction for such purpose or if no related Credit Event Resolution Request Date has occurred within three (3) Business Days of the occurrence of an Event Determination Date (any such event or election, a “**Fallback Settlement Event**”), the Notes shall be redeemed in accordance with the Fallback Settlement Method specified in the applicable Pricing Supplement.

(c) Cash Settlement

If the applicable Pricing Supplement specifies Cash Settlement as the Settlement Method in relation to a Reference Entity, or if a Fallback Settlement Event has occurred in respect of any Notes and the applicable Pricing Supplement specifies Cash Settlement as the Fallback Settlement Method, then such Notes will be redeemed by the payment by the Issuer to the Noteholders of the Cash Settlement Amount on the Cash Settlement Date.

(d) Physical Settlement

If the applicable Pricing Supplement specifies Physical Settlement as the Settlement Method, or if a Fallback Settlement Event occurs and the applicable Pricing Supplement specifies Physical Settlement as the applicable Fallback Settlement Method, then the Notes will be redeemed by physical delivery of Deliverable Obligations by us to the Noteholders in accordance with “*Physical Settlement*” below.

4. Suspension of obligations

If a Credit Event Resolution Request Date occurs in relation to a Reference Entity, then the obligations of the Issuer in relation to the Notes (including any obligation to deliver any notices, pay any interest, principal or settlement amount or to make any delivery) shall be, and remain, suspended until the Business Day following

the earlier of (a) the day falling sixty (60) Business Days following such Credit Event Resolution Request Date and (b) the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal. The Calculation Agent will provide notice of such suspension to the Paying Agent, as soon as reasonably practicable after a Credit Event Resolution Request Date. However, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements of the provisions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary. No interest shall accrue on any payments which are suspended in accordance with the above.

Without prejudice to paragraph (2) above, if, following the determination of an Event Determination Date but prior to the Settlement Date or, to the extent applicable, a Valuation Date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may, at its option, determine that the applicable timing requirements and the definitions of Credit Event Redemption Date, Valuation Date, Physical Settlement Period and NOPS Cut-off Date, and any other provision(s) as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a “**Suspension Period**”) until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal. In the event of any such Suspension Period, the Calculation Agent may make (x) such consequential or other adjustment(s) or determination(s) to or in relation to this Product Supplement or the applicable Pricing Supplement as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (y) determine the effective date of such adjustment(s) or determination(s).

In the case of interest-bearing Notes:

- (i) if a Suspension Period falls in any one or more Interest Period(s), then no interest (or any interest on any delayed payment of interest) shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (ii) if a Coupon Payment Date falls in a Suspension Period, such Coupon Payment Date will be deferred until such date as determined by the Calculation Agent falling no earlier than the first payment date and no later than the fifth payment day following the end of the Suspension Period.

5. Payment upon an event of default

In case an event of default with respect to the Notes shall have occurred and be continuing, the amount declared due and payable for each Note upon any acceleration of the Notes will be an amount equal to the cost of having a qualified financial institution, as described below, expressly assume all payment and other obligations with respect to the Notes as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to the Noteholders with respect to the Notes. Such cost will equal the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking.

During the default quotation period for the Notes (described below), either the Trustee and/or the Issuer, acting in good faith and in a commercially reasonable manner, may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. Once any such quotations are obtained in accordance with the foregoing, each of the Issuer and the Trustee must notify each other in writing of any quotations that they have received. The cost will equal the lowest—or if there is only one, the only—quotation obtained, and as to which notice is so given, during the default quotation period. If either the Issuer or Trustee should object, on reasonable grounds, to the quotation obtained by the other party, such party shall notify the other party in writing of those grounds within two (2) Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the amount due and payable.

The default quotation period is the period beginning on the day the Notes are accelerated and ending on the third (3rd) Business Day after that day, unless (i) no quotation of the kind referred to above is obtained, or (ii) every quotation obtained is objected to as described above. If either of these two events occurs, the default quotation period will continue until the third (3rd) Business Day after the first Business Day on which prompt

notice of a quotation that is not objected to is given as described above. In any event, if the default quotation period and the subsequent two (2) Business Day objection period have not ended before the Scheduled Credit Protection Period End Date, then the amount due and payable upon acceleration will be determined in accordance with this Product Supplement and the relevant Pricing Supplement as if the event of default had not occurred.

For the purpose of determining the amount due and payable upon acceleration, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one (1) year or less from the date of issue and rated either (i) A-1 or higher by S&P or any other comparable rating then used by that rating agency, or (ii) P-1 or higher by Moody's or any other comparable rating then used by that rating agency.

PHYSICAL SETTLEMENT

1. Application

The provisions in this section will apply following the occurrence of an Event Determination Date in relation to any Reference Entity under the terms of the Notes if Physical Settlement applies (including as the Fallback Settlement Method).

2. Notice of Physical Settlement

- (a) The Calculation Agent will deliver to the Paying Agent a Notice of Physical Settlement in relation to any Note on or prior to the applicable NOPS Cut-off Date.

If the Calculation Agent fails to deliver a Notice of Physical Settlement in relation to any Note on or prior to the applicable NOPS Cut-off Date, such Note shall be redeemed as set forth herein on the Scheduled Maturity Date.

- (b) If the Notice of Physical Settlement specifies any Deliverable Obligations which are not eligible for Delivery via any clearing system through which the Notes are cleared, as at the date of such notice, the Notice of Physical Settlement will also contain a statement notifying Noteholders that they must complete and return to the relevant clearing system a blocking instruction (or any other documentation requested by the Issuer in order to comply with securities laws or other transfer restrictions applicable to any Deliverable Obligation) in relation to the Notes held by them within thirty (30) Business Days of delivery of the Notice of Physical Settlement.

If any Noteholder fails to properly complete and deliver a blocking instruction (or any other documentation requested by the Issuer in order to comply with securities laws or other transfer restrictions applicable to any Deliverable Obligation), the Calculation Agent and/or the Issuer may determine in its sole and absolute discretion whether to waive the requirement to deliver a blocking instruction (or such other documentation).

- (c) The Calculation Agent may, from time to time, amend a Notice of Physical Settlement by delivering a NOPS Amendment Notice.
- (d) Notwithstanding the foregoing, (i) the Calculation Agent may amend or correct any errors or inconsistencies contained in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, by notifying the Trustee of such amendment or correction prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the NOPS Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a NOPS Amendment Notice.

- (e) If “Mod R” is specified as applicable in the Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be Delivered for settlement purposes only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case as of each such date as the Calculation Agent determines.
- (f) If “Mod Mod R” is specified as applicable in the Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be Delivered for settlement purposes only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.
- (g) Upon delivery of the Notice of Physical Settlement, any obligation of the Issuer to redeem or otherwise settle the Notes by way of cash payment will be extinguished in full and the Issuer’s sole obligation in relation to the Notes will be:
 - (i) to Deliver or cause to be Delivered the Deliverable Obligations specified in the Notice of Physical Settlement (as amended and corrected by any NOPS Amendment Notice); or
 - (ii) to pay cash in lieu of Delivery of the Deliverable Obligations in the event that the Issuer is unable to make such Delivery due to a Physical Settlement Disruption Event.

3. Delivery of Deliverable Obligations

- (a) In relation to each Note, the Issuer will:
 - (i) Deliver or cause to be Delivered Deliverable Obligations with an outstanding principal balance (excluding accrued but unpaid interest) in an aggregate amount (converted, if applicable, into the Specified Currency of the Notes, at the rate selected by the Calculation Agent and specified in the Notice of Physical Settlement) at least equal to the Notional Amount of such Note, rounded down to the nearest whole unit of each Deliverable Obligation, as reduced by a principal amount of Deliverable Obligations having a market value (as determined by the Calculation Agent in its sole discretion) equal to a pro rata proportion of the sum of any fees, costs, duties or taxes incurred by the Issuer or any of its affiliates in effecting such Delivery; and
 - (ii) where the Deliverable Obligations are rounded down to the nearest whole unit of each Deliverable Obligation as described in subparagraph (a)(i) above, pay to the holder an amount per Note equal to the value of that fraction of the Deliverable Obligations rounded down, as calculated by the Calculation Agent in its sole discretion from such source(s) as it may select (converted, if applicable, into the Specified Currency of the Notes, at a rate selected by the Calculation Agent).
- (b) In relation to each Note, the Issuer will Deliver to Noteholders any Deliverable Obligations of the Reference Entity specified in the Notice of Physical Settlement (or NOPS Amendment Notice) on or before the Initial Credit Event Delivery Redemption Date or, if less than all of such Deliverable Obligations are Delivered by the Initial Credit Event Delivery Redemption Date, on or before the applicable Delivery Cut-off Date.
- (c) If the Calculation Agent determines, in its sole discretion, that it is impossible or illegal to Deliver any Deliverable Obligation specified in a Notice of Physical Settlement (or NOPS

Amendment Notice), or a consent required for Delivery has not been obtained, the Issuer will, in lieu of Delivering such Deliverable Obligation, pay an amount per Note equal to the pro rata proportion of the market value of such Deliverable Obligations which are not Delivered in cash on a date no later than the tenth (10th) Business Day after the value of all such Deliverable Obligations which are not Delivered has been determined by the Calculation Agent, in its sole discretion.

4. Delivery Disruptions

If, in relation to any Noteholder, a Physical Settlement Disruption Event occurs, then:

- (a) on or prior to the Initial Credit Event Delivery Redemption Date, the Issuer will Deliver to the relevant Noteholder any of the relevant Deliverable Obligations which it is possible and legal for it to Deliver and for which each relevant clearing system has received a completed blocking instruction (or any other documentation requested by the Issuer in order to comply with securities laws or other transfer restrictions applicable to any Deliverable Obligation) sufficiently in advance of the Initial Credit Event Delivery Redemption Date;
- (b) as soon as practicable thereafter, the Issuer shall Deliver to the Noteholders any Deliverable Obligations specified in the Notice of Physical Settlement which have not been Delivered and it is subsequently possible and legal for it to Deliver and in respect of which each relevant clearing system has received a blocking instruction (or any other documentation requested by the Issuer in order to comply with securities laws or other transfer restrictions applicable to any Deliverable Obligation); and
- (c) if any Deliverable Obligations specified in the Notice of Physical Settlement have not been Delivered as of the relevant Delivery Cut-off Date, then “*Partial Cash Settlement in lieu of Delivery of Deliverable Obligations*” below will apply to such Deliverable Obligations.

5. Partial Cash Settlement in lieu of Delivery of Deliverable Obligations

If this provision applies, the Calculation Agent will determine the value of each Deliverable Obligation that is not Delivered, and each Note will be redeemed as though Cash Settlement were the applicable Settlement Method.

For such purpose:

- (a) the “Valuation Date” will be a date selected by the Calculation Agent falling not later than the fifth (5th) Business Day following the applicable Delivery Cut-off Date;
- (b) the Notional Amount of each Note shall be the aggregate outstanding principal balance of the Deliverable Obligations which are not Delivered relating to each such Note; and
- (c) the Calculation Agent shall seek bid quotations for Valuation Obligations having an aggregate outstanding principal balance equal to the aggregate outstanding principal balance of the Deliverable Obligations which are not Delivered.

CREDIT-LINKED INTEREST PROVISIONS

The following provisions apply in relation to any Notes which are interest-bearing.

Notwithstanding anything to the contrary in the Offering Memorandum but subject to the provisions of “*Linear Basket Notes*” and “*Tranche Notes*” below:

- (a) interest will cease to accrue on the Notes on the Coupon Payment Date immediately preceding any Event Determination Date; and

- (b) no interest will accrue after the Scheduled Maturity Date even if the payment of the outstanding principal amount, Auction Settlement Amount or Cash Settlement Amount, as applicable, occurs after such date or if the Notes are redeemed by Physical Settlement after such date.

If the Redemption of the Notes is deferred as set out in “*Physical Settlement — 4. Delivery Disruptions*” above, the accrual of interest on the Notes will be suspended for the period from and including the Coupon Payment Date immediately preceding the date of delivery of the applicable Extension Notice. If no Event Determination Date subsequently occurs during the Notice Delivery Period or a DC No Credit Event Announcement is made, suspended interest will be reinstated and paid on the date on which the Notes are finally redeemed.

CREDIT EVENTS AND RELATED PROVISIONS

The Credit Events which are applicable to a Reference Entity will be specified in the applicable Pricing Supplement. The Credit Event that is the subject of a Credit Event Notice does not have to be continuing as at the date of such Credit Event Notice or at any subsequent time.

The Calculation Agent’s decision as to whether a Credit Event has occurred with respect to a Reference Entity will be made without regard to whether or not such occurrence arises directly or indirectly from, or is subject to a defense based upon:

- (a) any lack or alleged lack of authority or capacity of the Reference Entity to enter into any Obligation or, as applicable, an Underlying Obligor to enter into any Underlying Obligation;
- (b) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any Obligation or, as applicable, any Underlying Obligation, however described;
- (c) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described; or
- (d) the imposition of, or any change in, any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority, however described.

The Calculation Agent may in its sole discretion rely on the determinations of any Credit Derivatives Determinations Committee as to whether any Credit Event has occurred and the date of such occurrence, but it is not obliged to do so.

EVENT DETERMINATION DATE

1. Credit Event Notice

As a condition to the Redemption of the Notes following the occurrence of a Credit Event, the Calculation Agent must deliver to the Paying Agent a Credit Event Notice during the Notice Delivery Period. Unless the Credit Event Notice cites a DC Credit Event Announcement with respect to the referenced Credit Event or unless the applicable Pricing Supplement specifies that Publicly Available Information is not applicable in relation to the relevant Reference Entity, such notice must be accompanied by a copy, or a description in reasonable detail, of the Publicly Available Information that reasonably confirms the facts relevant to the determination that a Credit Event described in the Credit Event Notice has occurred. The requirement for Publicly Available Information, if applicable, shall be deemed satisfied by the delivery of a certificate signed by an authorized signatory of the Calculation Agent, the Issuer or one of their affiliates which certifies the occurrence of such event and which (i) has been published in or on not less than the Specified Number of Public Sources (regardless of whether the reader or user thereof pays a fee to obtain such information); (ii) is information received from or published by (A) the Reference Entity (or, if the Reference Entity is a Sovereign, any agency, instrumentality, ministry, department or other authority thereof acting in a governmental capacity (including, without limiting the foregoing, the central bank) of such Sovereign), or (B) a trustee, fiscal agent, administrative agent, clearing agent, paying agent, facility agent or agent bank for an Obligation; or (iii) is

information contained in any order, decree, notice, petition or filing, however described, of or filed with a court, tribunal, exchange, regulatory authority or similar administrative, regulatory or judicial body; provided that where any information of the type described in subparagraphs (ii) or (iii) is not publicly available, it can only constitute Publicly Available Information if it can be made public without violating any law, agreement, understanding or other restriction regarding the confidentiality of such information.

2. Credit Event Notice after M(M)R Restructuring

Upon the occurrence of an M(M)R Restructuring:

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such Credit Event Notice setting forth the amount of the relevant Reference Entity Notional Amount to which such Credit Event Notice applies (the “**Exercise Amount**”), provided that if the Credit Event Notice does not specify an Exercise Amount, the full Reference Entity Notional Amount will be deemed to have been specified as the Exercise Amount;
- (b) if the Calculation Agent has delivered a Credit Event Notice that specifies an Exercise Amount that is less than the Reference Entity Notional Amount, the Note will be treated, with effect from the date such Credit Event Notice is effective, as though its notional amount is the Exercise Amount and, upon the occurrence of an Event Determination Date, the Note being redeemed (in whole or in part) in accordance with the applicable Settlement Method or Fallback Settlement Method, as applicable; and
- (c) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated and an integral multiple thereof or the entire Reference Entity Notional Amount.

TERMS RELATED TO RESTRUCTURING

1. Mod R

If (i) “Physical Settlement” is specified to be the Settlement Method (or is applicable as the Fallback Settlement Method) in the applicable Pricing Supplement, (ii) “Mod R” is specified as applicable in the applicable Pricing Supplement (iii) Restructuring is the only Credit Event specified in a Credit Event Notice delivered by Issuer, then unless the Deliverable Obligation is a Prior Deliverable Obligation and the applicable Asset Package Credit Event is a Governmental Intervention, a Deliverable Obligation may be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, only if such Deliverable Obligation:

- (a) is a Fully Transferable Obligation; and
- (b) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date.

2. Mod Mod R

If (i) “Physical Settlement” is specified to be the Settlement Method (or is applicable as the Fallback Settlement Method) in the applicable Pricing Supplement, (ii) “Mod Mod R” is specified as applicable in the applicable Pricing Supplement and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice delivered by Issuer, then unless the Deliverable Obligation is a Prior Deliverable Obligation and the applicable Asset Package Credit Event is a Governmental Intervention, a Deliverable Obligation may be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, only if it

- (a) is a Conditionally Transferable Obligation; and

- (b) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date. Notwithstanding the foregoing, for the purpose of this provision, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

OBLIGATIONS AND DELIVERABLE OBLIGATIONS

1. Generally

Certain Credit Events (e.g., Failure to Pay and Restructuring) will only be treated as such if, among other things, they occur in relation to Obligations.

Following the occurrence of an Event Determination Date, if Physical Settlement applies to the Notes (including following the occurrence of a Fallback Settlement Event), the Issuer will Deliver Deliverable Obligations of the Reference Entity(s). Where Auction Settlement applies, then Deliverable Obligations will form the basis of the Auction(s) sponsored by ISDA in relation to the relevant Reference Entity. If Cash Settlement applies, the Calculation Agent will, as applicable, seek quotations in relation to Valuation Obligations for the purpose of determining the applicable Final Price.

2. Obligation Categories

The Obligation Category applicable to a Reference Entity will be specified in the applicable Pricing Supplement from among the following: (i) Payment, (ii) Borrowed Money, (iii) Reference Obligation Only, (iv) Bond, (v) Loan and (vi) Bond or Loan.

3. Obligation Characteristics

The Obligation Characteristics applicable to a Reference Entity will be specified in the applicable Pricing Supplement from among the following: (i) Not Subordinated, (ii) Specified Currency, (iii) Not Sovereign Lender, (iv) Not Domestic Currency, (v) Not Domestic Law, (vi) Listed and (vii) Not Domestic Issuance; provided that no Obligation Characteristics shall apply if the Obligation Category is Reference Obligation Only.

4. Deliverable Obligation Categories

The Deliverable Obligation Category applicable to a Reference Entity will be specified in the applicable Pricing Supplement from among the following; (i) Payment, (ii) Borrowed Money, (iii) Reference Obligation Only, (iv) Bond, (v) Loan and (vi) Bond or Loan (each as defined in the definition of "Obligation Category" below, except that, for the purpose of determining Deliverable Obligations, the definition of "Reference Obligation Only" shall be amended to state that no Deliverable Obligation Characteristics shall be applicable to Reference Obligation Only).

5. Deliverable Obligation Characteristics

The Deliverable Obligation Characteristics applicable to a Reference Entity will be specified in the applicable Pricing Supplement from among the following: (i) Not Subordinated, (ii) Specified Currency, (iii) Not Sovereign Lender, (iv) Not Domestic Currency, (v) Not Domestic Law, (vi) Listed, (vii) Not Domestic Issuance, (viii) Assignable Loan, (ix) Consent Required Loan, (x) Direct Loan Participation, (xi) Transferable, (xii) Maximum Maturity, (xiii) Accelerated or Matured and (xiv) Not Bearer; provided that no Deliverable Obligation Characteristics shall apply if the Deliverable Obligation Category is Reference Obligation Only.

If any of Payment, Borrowed Money, Loan or Bond or Loan is specified as the Deliverable Obligation Category for the Deliverable Obligations and more than one of Assignable Loan, Consent Required Loan and Direct Loan Participation are specified as Deliverable Obligation Characteristics for the Deliverable Obligations in the applicable Pricing Supplement, the Deliverable Obligations may include any Loan that satisfies any one of

such Deliverable Obligation Characteristics specified and such Loan need not satisfy all such Deliverable Obligation Characteristics.

Notwithstanding anything else herein, no obligation will be a Deliverable Obligation if Delivery of such obligation to a Noteholder would require or cause that Noteholder to assume, or would subject that Noteholder to, any obligation, liability or commitment to lend additional funds (including any outstanding contingent commitment) (in each case other than (i) immaterial, nonpayment obligations and any assignment or transfer fee in respect of loans and (ii) obligations arising under customary provisions in respect of borrowed money, including but not limited to requirements that the holders thereof indemnify or reimburse a trustee, administrative or fiscal agent or similar person or entity for costs, liabilities or expenses and customary pro rata sharing provisions requiring any amount received by a lender through payment, set-off or otherwise other than through the procedures set forth in the relevant loan documentation to be shared with other lenders).

6. Method for Determining Obligations

For the purposes of paragraph (a) of the definition of Obligation below, the term “Obligation” may be defined as the obligation of each Reference Entity described by the Obligation Category specified in the Pricing Supplement, and having each of the Obligation Characteristics (if any) specified in the Pricing Supplement, in each case, immediately prior to the Credit Event which is the subject of either the Credit Event Notice or the DC Credit Event Question resulting in the occurrence of the Credit Event Resolution Request Date, as applicable. The following terms shall have the following meanings:

“**Obligation Category**” means Payment, Borrowed Money, Reference Obligation Only, Bond, Loan, or Bond or Loan, only one of which shall be specified in the Pricing Supplement, where:

- (i) “**Payment**” means any obligation (whether present or future, contingent or otherwise) for the payment or repayment of money, including, without limitation, Borrowed Money;
- (ii) “**Borrowed Money**” means any obligation (excluding an obligation under a revolving credit arrangement for which there are no outstanding unpaid drawings in respect of principal) for the payment or repayment of borrowed money (which term shall include, without limitation, deposits and reimbursement obligations arising from drawings pursuant to letters of credit);
- (iii) “**Reference Obligation Only**” means any obligation that is a Reference Obligation and no Obligation Characteristics shall be applicable to Reference Obligation Only;
- (iv) “**Bond**” means any obligation of a type included in the “Borrowed Money” Obligation Category that is in the form of, or represented by, a bond, note (other than notes delivered pursuant to Loans), certificated debt security or other debt security and shall not include any other type of Borrowed Money;
- (v) “**Loan**” means any obligation of a type included in the “Borrowed Money” Obligation Category that is documented by a term loan agreement, revolving loan agreement or other similar credit agreement and shall not include any other type of Borrowed Money; and
- (vi) “**Bond or Loan**” means any obligation that is either a Bond or a Loan.

“**Obligation Characteristics**” means any one or more of Not Subordinated, Specified Currency, Not Sovereign Lender, Not Domestic Currency, Not Domestic Law, Listed and Not Domestic Issuance specified in the Pricing Supplement, where:

- (i) “**Not Subordinated**” means an obligation that is not Subordinated to (1) the Reference Obligation or, (2) the Prior Reference Obligation, if applicable;
- (ii) “**Subordination**” means, with respect to an obligation (the “**Second Obligation**”) and another obligation of the Reference Entity to which such obligation is being compared (the “**First Obligation**”), a contractual, trust or other similar arrangement providing that (1) upon the liquidation, dissolution, reorganization or winding-up of the Reference Entity, claims of the

holders of the First Obligation are required to be satisfied prior to the claims of the holders of the Second Obligation or (II) the holders of the Second Obligation will not be entitled to receive or retain principal payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. “**Subordinated**” will be construed accordingly. For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and “Standard Reference Obligation” is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date; and

- (iii) “**Prior Reference Obligation**” means, in circumstances where there is no Reference Obligation applicable to the relevant Notes, (I) the Reference Obligation most recently applicable thereto, if any, and otherwise, (II) the obligation specified in the Pricing Supplement as the Reference Obligation, if any, if such Reference Obligation was redeemed on or prior to the Trade Date and otherwise, (III) any unsubordinated Borrowed Money obligation of the Reference Entity;
- (iv) “**Specified Currency**” means an obligation that is payable in the currency or currencies specified as such in the Pricing Supplement (or, if Specified Currency is specified in the Pricing Supplement and no currency is so specified, any Standard Specified Currency) provided that if the euro is a Specified Currency, “Specified Currency” shall also include an obligation that was previously payable in the euro, regardless of any redenomination thereafter if such redenomination occurred as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority;
- (v) “**Not Sovereign Lender**” means any obligation that is not primarily owed to (A) a Sovereign or (B) any entity or organization established by treaty or other arrangement between two or more Sovereigns including, without limiting the foregoing, the International Monetary Fund, European Central Bank, International Bank for Reconstruction and Development and European Bank for Reconstruction and Development, which shall include, without limitation, obligations generally referred to as “Paris Club debt”;
- (vi) “**Not Domestic Currency**” means any obligation that is payable in any currency other than applicable Domestic Currency provided that a Standard Specified Currency shall not constitute the Domestic Currency;
- (vii) “**Not Domestic Law**” means any obligation that is not governed by applicable Domestic Law, provided that the laws of England and the laws of the State of New York shall not constitute a Domestic Law;
- (viii) “**Listed**” means an obligation that is quoted, listed or ordinarily purchased and sold on an exchange; and
- (ix) “**Not Domestic Issuance**” means any obligation other than an obligation that was issued (or reissued, as the case may be) or intended to be offered for sale primarily in the domestic market of the Reference Entity. Any obligation that is registered or, as a result of some other action having been taken for such purpose, is qualified for sale outside the domestic market of the Reference Entity (regardless of whether such obligation is also registered or qualified

for sale within the domestic market of the Reference Entity) shall be deemed not to be issued (or reissued, as the case may be), or intended to be offered for sale primarily in the domestic market of the Reference Entity.

7. Method for Determining Deliverable Obligations

For the purposes of the definition of Deliverable Obligation, the term “Deliverable Obligation” may be defined as each obligation of the Reference Entity described by the Deliverable Obligation Category specified in the Pricing Supplement, and, subject to paragraph 8 (*Interpretation of Provisions*) below, having each of the Deliverable Obligation Characteristics, if any, specified in the Pricing Supplement, in each case, as of each such date the Calculation Agent determines relevant for purposes of the Hedging Arrangements. The following terms shall have the following meanings:

- (a) **“Deliverable Obligation Category”** means one of Payment, Borrowed Money, Reference Obligation Only, Bond, Loan, or Bond or Loan (each as defined in the definition of “Obligation” below, except that, for the purpose of determining Deliverable Obligation, the definition of “Reference Obligation Only” shall be amended to state that no Deliverable Obligation Characteristics shall be applicable to Reference Obligation Only).
- (b) **“Deliverable Obligation Characteristics”** means any one or more of Not Subordinated, Specified Currency, Not Sovereign Lender, Not Domestic Currency, Not Domestic Law, Listed, Not Domestic Issuance (each as defined in the definition of “Obligation” below), Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer;
 - (i) **“Assignable Loan”** means a Loan that is capable of being assigned or novated to, at a minimum, commercial banks or financial institutions (irrespective of their jurisdiction of organization) that are not then a lender or a member of the relevant lending syndicate, without the consent of the relevant Reference Entity or the guarantor, if any, of such Loan (or the consent of the applicable borrower if the Reference Entity is guaranteeing such Loan) or any agent;
 - (ii) **“Consent Required Loan”** means a Loan that is capable of being assigned or novated with the consent of the Reference Entity or the guarantor, if any, of such Loan (or the consent of the relevant borrower if the Reference Entity is guaranteeing such loan) or any agent;
 - (iii) **“Direct Loan Participation”** means a Loan in respect of which, pursuant to a participation agreement, the Issuer is capable of creating, or procuring the creation of, a contractual right in favor of each Noteholder that provides each Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant Loan which are received by such participation seller, any such agreement to be entered into between each Noteholder and either (A) the Issuer or the Guarantor, as the case may be, (to the extent that the Issuer or the Guarantor, as applicable, is then a lender or a member of the relevant lending syndicate), or (B) a Qualifying Participation Seller (if any) (to the extent such Qualifying Participation Seller is then a lender or a member of the relevant lending syndicate);
 - (iv) **“Transferable”** means an obligation that is transferable to institutional investors without any contractual, statutory or regulatory restriction, provided that none of the following shall be considered contractual, statutory or regulatory restrictions:
 - (A) contractual, statutory or regulatory restrictions that provide for eligibility for resale pursuant to Rule 144A or Regulation S promulgated under the United States Securities Act of 1933, as amended (and any contractual, statutory or regulatory restrictions promulgated under the laws of any jurisdiction having a similar effect in relation to the eligibility for resale of an obligation);
 - (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds; or

- (C) restrictions in respect of blocked periods on or around payment dates or voting periods;
- (v) **“Maximum Maturity”** means an obligation that has a remaining maturity of not greater than the period specified in the Pricing Supplement (or if no such period is specified, thirty (30) years);
- (vi) **“Accelerated or Matured”** means an obligation under which the principal amount owed, whether by reason of maturity, acceleration, termination or otherwise, is due and payable in full in accordance with the terms of such obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws; and
- (vii) **“Not Bearer”** means any obligation that is not a bearer instrument unless interests with respect to such bearer instrument are cleared via Euroclear, Clearstream International or any other internationally recognised clearing system.

8. Interpretation of Provisions

- (A) If either of the Obligation Characteristics “Listed” or “Not Domestic Issuance” is specified in the Pricing Supplement, the Pricing Supplement shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.
- (B) If (i) either of the Deliverable Obligation Characteristics “Listed,” “Not Domestic Issuance” or “Not Bearer” is specified in the Pricing Supplement, the Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds; (ii) the Deliverable Obligation Characteristic “Transferable” is specified in the Pricing Supplement, the Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans; or (iii) any of the Deliverable Obligation Characteristics “Assignable Loan,” “Consent Required Loan” or “Direct Loan Participation” is specified in the Pricing Supplement, the Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans.
- (C) If more than one of “Assignable Loan,” “Consent Required Loan” and “Direct Loan Participation” are specified as Deliverable Obligation Characteristics in the Pricing Supplement, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.
- (D) If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:
 - (1) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation;
 - (2) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the Pricing Supplement from the following list: “Not Subordinated,” “Specified Currency,” “Not Sovereign Lender,” “Not Domestic Currency” and “Not Domestic Law”;
 - (3) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the Pricing Supplement from the following list: “Listed,” “Not Domestic Issuance,” “Assignable Loan,” “Consent Required Loan,” “Direct Loan Participation,” “Transferable,” “Maximum Maturity,” “Accelerated” or “Matured” and “Not Bearer;” and

- (E) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (F) For purposes of the application of the Deliverable Obligation Characteristic “Maximum Maturity,” remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.
- (G) If “Financial Reference Entity Terms” and “Governmental Intervention” are specified as applicable in the Pricing Supplement, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity’s obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.
- (H) For purposes of determining the applicability of Deliverable Obligation Characteristics to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.
- (I) If “Subordinated European Insurance Terms” is specified as applicable in the Pricing Supplement, if an obligation would otherwise satisfy the “Maximum Maturity” Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

For the avoidance of doubt the provisions of this paragraph 8 apply in respect of the definitions of Obligation and Deliverable Obligation as the context admits.

9. Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (a) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation.
- (b) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Pricing Supplement from the following list: Not Subordinated, Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law.
- (c) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Pricing Supplement from the following list: Listed, Not Domestic Issuance, Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer.
- (d) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.

SUCCESSOR REFERENCE ENTITY

1. Generally

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors in accordance with the definition of Successor, provided that the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under the definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Noteholders at the specified office of the Paying Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) of the definition of Successor, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where (i) a Reference Obligation has been specified in the applicable Pricing Supplement, (ii) one or more Successors to the Reference Entity have been identified and (iii) any one or more such Successors have not assumed the Reference Obligation, a Substitute Reference Obligation will be determined in accordance with “*Substitute Reference Obligations*” below.

Notwithstanding the above, the Calculation Agent may in its sole discretion rely on the determination of any Credit Derivatives Determinations Committee as to whether any Successor has been identified in relation to any Reference Entity but is not obliged to do so.

Where pursuant to paragraph (a)(iii), (a)(iv), (a)(vi) or (b) of the definition of Successor, more than one Successor has been identified, the Calculation Agent shall adjust the terms of this Product Supplement and/or the Pricing Supplement as it shall determine to be appropriate to reflect that the Reference Entity has been succeeded to by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of this Product Supplement and/or the Pricing Supplement in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Notes under the provisions of the 2014 Credit Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders stating the adjustment to this Product Supplement and/or the Pricing Supplement and giving brief details of the relevant Successor event.

2. First-to-Default Notes

In respect of any First-to-Default Notes:

Substitution Not Applicable:

Where any Reference Entity (the “**Surviving Reference Entity**”) (other than the Reference Entity for which a Successor fails to be determined pursuant to this definition of “Successor”) would be a Successor to any other Reference Entity (the “**Legacy Reference Entity**”) in accordance with the definition of “Successor” and Substitution is specified as Not Applicable in the applicable Pricing Supplement, such Surviving Reference Entity shall be deemed a Successor to the Legacy Reference Entity.

Substitution Applicable:

Where any Reference Entity (the “**Surviving Reference Entity**”) (other than the Reference Entity for which a Successor fails to be determined pursuant to this definition of “Successor”) would be a Successor to any other

Reference Entity (the “**Legacy Reference Entity**”) in accordance with the definition of “Successor” and Substitution is specified as Applicable in the applicable Pricing Supplement:

- (a) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
- (b) the Calculation Agent may in its reasonable discretion (but is not required to) (i) select an Alternative Reference Entity to be the Successor in respect of the relevant succession and (ii) select an Alternative Reference Obligation to be the Reference Obligation in respect of such Alternative Reference Entity after the relevant succession from and including the relevant Succession Date and the Calculation Agent may make such adjustments to the Product Supplement, and/or the applicable Pricing Supplement as it determines to be necessary or desirable to reflect such Alternative Reference Entity and Alternative Reference Obligation. If the Calculation Agent acting reasonably does not select an Alternative Reference Entity or an Alternative Reference Obligation, then: (A) no Successor shall be appointed; (B) the Surviving Reference Entity will continue to be a Reference Entity; (C) the Legacy Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (D) that portion of any interest payable which is allocable to the credit protection purchased under the Notes in respect of the Legacy Reference Entity shall be reduced accordingly as determined by the Calculation Agent; and (E) the Calculation Agent may make any necessary adjustments to the Product Supplement and/or the applicable Pricing Supplement to account for Successor Associated Costs, which may include, without limitation, reducing the amount payable on Redemption of the Notes and/or the amount payable on Redemption of the Notes following the occurrence of a Credit Event by an amount equal to any Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the relevant Succession Date.

Where:

Alternative Reference Entity means an entity which satisfies both the Industry Requirement and the Spread Requirement as determined by the Calculation Agent in its reasonable discretion;

Alternative Reference Obligation means any obligation of the Alternative Reference Entity selected by the Calculation Agent in its reasonable discretion which, as far as practicable, in the determination of the Calculation Agent is substantially similar in economic terms to the relevant Reference Obligation of the Reference Entity for which a Successor fails to be determined pursuant to this definition of “Successor.” An Alternative Reference Obligation may or may not be the applicable Standard Reference Obligation for the Alternative Reference Entity;

Industry Requirement means an entity that is in the same industry group specified by Moody’s Investor Service, Inc. or any successor to the rating business thereof or Standard & Poor’s Rating Services, a division of The McGraw-Hill Companies, Inc. or any successor to the rating business thereof as the Reference Entity for which a Successor fails to be determined pursuant to this definition of “Successor”, as determined by the Calculation Agent in its reasonable discretion;

Spread means the bid-side quotation obtained by the Calculation Agent from a leading dealer in the credit default swap market selected by the Calculation Agent in its reasonable discretion for a credit default swap in respect of the relevant entity with a credit protection period commencing on the date determined by the Calculation Agent to be the date of the relevant Succession Date and ending on the Maturity Date and with the Reference Obligation(s) specified in the applicable Pricing Supplement; and

Spread Requirement means an entity that, as at the date of selection, has a Spread not greater than the Spread of the Reference Entity for which a Successor fails to be determined pursuant to this definition of “Successor”, immediately prior to the relevant Succession Date as determined by the Calculation Agent in its reasonable discretion.

Successor Associated Costs means an amount per unit or nominal amount of Notes equal to the Calculation Amount (which may not be less than zero) equal to such Notes’ *pro rata* share of the total amount of any and all costs and losses associated with or incurred by the Bank and/or any Affiliate in

connection with the Affected Reference Entity ceasing to be a Reference Entity, including, without limitation, any costs and losses associated with or incurred by the Bank and/or any Affiliate in connection with unwinding, substituting, re-establishing and/or incurring any funding relating to the Notes and/or any hedge positions (including without limitation, any derivative transaction) relating to the Notes, and any related costs due to costs or losses being incurred prior to the maturity or settlement of the Notes, all as determined by the Calculation Agent in its reasonable discretion.

3. Multiple Successors

Subject to the provisions of “*Linear Basket Notes*” and “*Tranche Notes*” below, where more than one Successor has been identified, and where unless otherwise specified in the relevant Pricing Supplement, the Notes shall be deemed, for the purpose of determining the payment, delivery and other obligations of the Issuer, to have divided into the same number of notional Notes as there are Successors. Each such notional Note shall reference a Successor and (if applicable) shall have a Notional Amount or an outstanding principal amount equal to the Notional Amount or outstanding principal amount of such Note immediately prior to the determination of a Successor, divided by the number of Successors.

MONOLINE INSURER AS REFERENCE ENTITY

If a Reference Entity in the applicable Pricing Supplement is a Monoline Insurer, then the following provisions will apply with respect to such Reference Entity:

1. Obligation and Deliverable Obligation

Paragraph (a) of the definition of “Obligation” and paragraph (a) of the definition of “Deliverable Obligation” are hereby amended by adding “or Qualifying Policy” after “or as provider of a Relevant Guarantee.”

2. Interpretation of Provisions

In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, the terms of paragraph (ii) (*Interpretation of Provisions*) of the definition of “Deliverable Obligation” will apply, with references to “Relevant Guarantee,” the “Underlying Obligation” and the “Underlying Obligor” deemed to include the “Qualifying Policy,” the “Insured Instrument” and the “Insured Obligor,” respectively, except that:

- (a) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms “obligation” and “obligor” as used herein in respect of such an Insured Instrument shall be construed accordingly;
- (b) references in the definitions of “Assignable Loan” and “Consent Required Loan” to “guarantor” and “guaranteeing” shall be deemed to include “insurer” and “insuring,” respectively;
- (c) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Pricing Supplement;
- (d) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Pricing Supplement and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument;
- (e) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term “maturity,” as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying

Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur; and

- (f) with respect to a Qualifying Policy and an Insured Instrument, only the Qualifying Policy must satisfy on the relevant date or dates the “Not Subordinated” Obligation Characteristic or Deliverable Obligation Characteristic, if applicable.

3. Outstanding Principal Balance

References in paragraph (a) of the definition of “Outstanding Principal Balance” to a Guarantee, the Underlying Obligation and the Underlying Obligor shall be deemed to include a Qualifying Policy, the Insured Instrument and the Insured Obligor respectively. Any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument shall be disregarded for the purposes of subparagraph (b)(ii) in the definition of “Outstanding Principal Balance,” provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction.

4. Deliver

For the purposes of the definition of “Deliver,” “Deliver” with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognized custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and “Delivery” and “Delivered” will be construed accordingly.

5. Provisions for Determining a Successor

Subparagraphs (a), (c) and (d) of the definition of “Successor” are hereby amended by adding “or Qualifying Policy” after each occurrence of “a Relevant Guarantee.” Paragraph (d) of the definition of “Successor” is hereby amended by adding “or provider of a Qualifying Policy” after “as guarantor or guarantors.”

6. Original Non-Standard Reference Obligation, Substitute Reference Obligation and Substitution Event

The definitions of “Original Non-Standard Reference Obligation,” “Substitute Reference Obligation” and “Substitution Event” are hereby amended by adding “or Qualifying Policy” after “a guarantee.”

7. Restructuring

- (a) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, clauses (a) to (e), inclusive, of the definition of “Restructuring” are hereby amended to read as follows:
 - “(a) a reduction in the rate or amount or the Instrument Payments in sub-clause (i)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
 - (b) a reduction in the amount of the Instrument Payments described in sub-clause (i)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
 - (c) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in sub-clause (i)(x) of the definition thereof or (y) the payment of the Instrument Payments described in sub-clause (i)(y) of the definition thereof, in each case that are guaranteed or insured by the “Qualifying Policy”;

- (d) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
 - (e) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the “Qualifying Policy” to any currency (other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro as a whole).”
- (b) Paragraph (iv) of the definition of “Restructuring” is hereby amended by adding “or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the “Qualifying Policy” continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the “Qualifying Policy” guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the “Qualifying Policy” at the end thereof.
 - (c) The definition of “Restructuring” is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

“For purposes of the definition of “Restructuring,” the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in the definition of “Restructuring” shall be deemed to refer to the Insured Obligor and the reference to the Reference Entity in paragraph (iv) of the definition of “Restructuring” shall continue to refer to the Reference Entity.”

8. Fully Transferable Obligation and Conditionally Transferable Obligation

In the event that a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition and, if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument. References in the definition of Conditionally Transferable Obligation to the guarantor and guaranteeing shall be deemed to include the insurer and insuring, respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term “final maturity date,” as such term is used in the definitions of “Mod R” and “Mod Mod R” and the definition of “Restructuring Maturity Limitation Date,” shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

9. Other Provisions

For purposes of the definitions of “Prohibited Action,” “Credit Event” and “Deliver,” references to the Underlying Obligation and the Underlying Obligor shall be deemed to include Insured Instruments and the Insured Obligor, respectively.

SUBSTITUTE REFERENCE OBLIGATIONS

With respect to a Standard Reference Obligation, if the Standard Reference Obligation is removed from the SRO List, such obligation shall cease to be the Reference Obligation and the Calculation Agent will select as a substitute Reference Obligation any Deliverable Obligation with the same level of seniority as the relevant Seniority Level. In addition, (i) the Calculation Agent may replace the Reference Obligation with any further Deliverable Obligation with the same level of seniority as the relevant Seniority Level from time to time and (ii)

if a new obligation is placed on the SRO List in respect of the relevant Reference Entity, then the Calculation Agent may, but is not obliged to, select the new Standard Reference Obligation in respect of the Reference Entity as the Reference Obligation.

In the event that (i) a Non-Standard Reference Obligation is redeemed in whole or (ii) provided that the Notes to which the Non-Standard Reference Obligation relates are not Reference Obligation Only Notes, the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by Redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee), the Calculation Agent will identify one or more Substitute Reference Obligations to replace such Non-Standard Reference Obligation in accordance with the requirements of the definition of Substitute Reference Obligation below.

The Calculation Agent may in its sole discretion rely on the determinations of any Credit Derivatives Determinations Committee, including without limitation, in relation to whether circumstances have occurred that require a Substitute Reference Obligation to be identified and/or any Substitute Reference Obligation.

LINEAR BASKET NOTES

As described in the applicable provisions below, Linear Basket Notes are linked to the credit risk of a basket of Reference Entities, with a portion of the nominal or notional amount of each Note being at risk to each such Reference Entity. The following provisions apply in relation to Linear Basket Notes.

For the purposes of Linear Basket Notes, references herein relating to Redemption and settlement or the cessation of interest accrual or the payment or non-payment of interest or additional amounts and to the determination of Successor and Substitute Reference Obligations shall apply separately with respect to each Reference Entity in respect of a fraction of the Notional Amount of the relevant Note equal to the Reference Entity Weighting of such Reference Entity.

To the extent that the Calculation Agent identifies more than one Successor in relation to a Reference Entity, then the Reference Entity Weighting applicable to each Successor shall equal the Reference Entity Weighting of the relevant Reference Entity immediately prior to the determination of a Successor, divided by the number of Successors identified by the Calculation Agent.

Linear Basket Notes that are redeemed by Cash Settlement or Auction Settlement shall be redeemed by payment, in respect of each Note of an amount equal to (i) the aggregate of the Reference Entity Notional Amounts per Note applicable to each Reference Entity in relation to which an Event Determination Date has not occurred during the Notice Delivery Period, and (ii) the aggregate of the Auction Settlement Amounts or Cash Settlement Amounts, as applicable, calculated in relation to each Reference Entity in relation to which an Event Determination Date has occurred during the Notice Delivery Period. Such amount shall be payable (a) in the case of Linear Basket Notes in respect of which "Deferred Settlement" is specified as not applicable in the applicable Pricing Supplement, on each date on which payment would fall due in relation to any Reference Entity, applying the Redemption and settlement provisions hereof as they would apply to a Single Name Note referencing such Reference Entity and (b) in the case of Linear Basket Notes in respect of which "Deferred Settlement" is specified as applicable in the applicable Pricing Supplement, on the later of the Scheduled Maturity Date and the last date on which payment would fall due in relation to any Reference Entity, applying the Redemption and settlement provisions hereof as they would apply to a Single Name Note referencing such Reference Entity.

If the provisions of this subsection apply, on Redemption of part of each such Note, such Note or, if the Notes are represented by a global instrument, such global instrument shall be endorsed to reflect such partial Redemption.

TRANCHE NOTES

As described in the applicable provisions below, Tranche Notes are linked to the credit risk of a basket of Reference Entities and will incur principal writedowns to the extent that Event Determination Dates in relation

to such Reference Entities result in Loss Amounts that exceed the applicable Tranche Subordination Amount. The following provisions apply in relation to Tranche Notes.

To the extent that the Calculation Agent identifies more than one Successor in relation to a Reference Entity, then the Reference Entity Weighting applicable to each Successor shall equal the Reference Entity Weighting of the relevant Reference Entity immediately prior to the determination of a Successor, divided by the number of Successors identified by the Calculation Agent.

Tranche Notes shall be redeemed by payment in respect of each Note of an amount equal to the excess, if any, of the Tranche Notional Amount per Note above the Aggregate Loss Amount per Note. Such amount shall be payable on the later of the Scheduled Maturity Date or, if an Event Determination Date has occurred during the Notice Delivery Period, the last date on which payment would fall due in relation to any Reference Entity if Cash Settlement or Auction Settlement, as specified in the applicable Pricing Supplement for purposes of determining Loss Amounts, applies in respect of such Reference Entity and the corresponding Event Determination Date.

If an Event Determination Date occurs and the Calculation Agent determines in its sole discretion that such Event Determination Date may result in an increment to the Aggregate Loss Amount, then the accrual of interest from and including the Coupon Payment Date preceding such Event Determination Date will be suspended on a portion of the Tranche Notional Amount equal to the Reference Entity Notional Amount of the Reference Entity with respect to which such Event Determination Date has occurred; provided that following the determination of the Loss Amount in respect of such Event Determination Date, if such Loss Amount has not resulted in an increment to the Aggregate Loss Amount, then such suspended interest shall be reinstated and paid on the fifth (5th) Business Day following the determination of such Loss Amount; provided, further, that if such Loss Amount has resulted in an increment to the Aggregate Loss Amount, then interest on the portion of the Tranche Notional Amount equal to such increment to the Aggregate Loss Amount shall be deemed to have ceased accruing on the Coupon Payment Date preceding such Event Determination Date and no interest on such portion shall thereafter accrue on the Notes, but any suspended interest in excess of the interest on such portion shall be reinstated and paid on the fifth (5th) Business Day following the determination of such Loss Amount.

ADDITIONAL DISRUPTION EVENTS

Following the determination by the Calculation Agent that an Additional Disruption Event has occurred, the Issuer in its sole and absolute discretion may take the action described in (a) or (b) below:

- (a) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms herein and/or the applicable Pricing Supplement to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (b) give notice to Holders and redeem all, but not less than all, of the Notes at an amount per Note determined by the Calculation Agent, which, on the due date for the Redemption of such Note, shall represent the fair market value of such Note and shall have the effect of preserving for the Noteholder the economic equivalent of the obligations of the Issuer to make the payments in respect of such Note which would, but for such Early Redemption, have fallen due after the relevant early Redemption Date. In respect of Notes bearing interest, the Early Redemption amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early Redemption Date and apart from any such interest included in the Early Redemption amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer in respect of such Redemption.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Trustee, stating the occurrence of the Additional Disruption Event and giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

AMENDMENTS

The Calculation Agent may, without obtaining the consent of or consulting with the Noteholders or any other person, from time to time and at any time in its sole and absolute discretion, adjust the terms of the Notes described in this Product Supplement and the applicable Pricing Supplement in accordance with any industry protocol or convention published by ISDA with respect to credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committees, if and to the extent that the Calculation Agent determines that such protocol or convention would amend the terms of outstanding credit derivatives transactions that have a trade date that coincides with (or is earlier than) the Issue Date of the Notes and are of a type comparable to the credit-linked provisions of the Notes.

DEFINITIONS

“Outstanding Principal Balance” means the outstanding principal balance of an obligation which will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity’s principal payment obligations and, where applicable in accordance with the definition of Accrued Interest, the Reference Entity’s accrued but unpaid interest payment obligations which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any;
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation (i) is subject to any Prohibited Action or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (i) payment or ii) a Permitted Contingency) (the amount determined in (i) less any amounts subtracted in accordance with (ii), the **“Non-Contingent Amount”**); and

in each case, determined:

- (i) unless otherwise specified, in accordance with the terms of the obligation in effect on the date selected by the Calculation Agent by reference to any hedge positions; and
- (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

Where “applicable laws” shall include any bankruptcy or insolvency law or other law affecting creditors’ rights to which the relevant obligation is, or may become, subject.

Where:

(A) Quantum of the Claim means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

(i) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the **“Original Obligation(s)”**) at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

(ii) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a Noteholder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

If “Multiple Holder Obligation” is specified as applicable in the Pricing Supplement, then, notwithstanding anything to the contrary in this definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in subparagraphs (a) to (e) above shall not constitute a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

For purposes of this definition of Restructuring, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity in the definition of Restructuring and the definition of Subordination shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in paragraphs (i) to (iv) of this definition shall continue to refer to the Reference Entity.

 - (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five percent (25%) of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two (2) or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and this Product Supplement and/or the Pricing Supplement will be adjusted as provided below); and

For purposes of this definition of “Successor,” “succeeded” and “succession” shall be construed accordingly. In the case of an exchange offer, the determination required pursuant to paragraph (a) shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (d) If two or more entities (each, a “**Joint Potential Successor**”) jointly succeed to a Relevant Obligation (the “**Joint Relevant Obligation**”) either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having

been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

The offering of the Notes will be conducted in compliance with any applicable requirements of FINRA Rule 5121 of the Financial Industry Regulatory Authority, Inc.

To the extent that the total Aggregate Notional Amount of the Notes being offered by this Product Supplement and the applicable Pricing Supplement is not purchased by investors in the offering for the Notes, one or more of our affiliates has agreed to purchase the unsold portion, and to hold such Notes.

Please note that information herein and in the applicable Pricing Supplement about the Pricing Date, Issue Date, Issue Price to the public and net proceeds to the Issuer relates only to the initial sale of the Notes. If you have purchased the Notes in a secondary market transaction after the initial sale, information about the price and date of sale to you will be provided in a separate confirmation of sale.

No offers, sales or deliveries of Notes, or distribution of this Product Supplement, the applicable Pricing Supplement or the Offering Memorandum or any other offering material relating to Notes, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on us or any Distributor.

For information on selling restrictions in specific jurisdictions in which Notes will be sold, see the Offering Memorandum.

If we, the applicable Dealer or any of our or its respective affiliates provides a secondary market, we, such dealer or such affiliate will determine the secondary market prices in our or its sole discretion. Any market-making price quoted by us, the applicable Dealer or any of our or its affiliates will be net of all or a portion of any commission paid or allowance made to the Distributors.

Conflicts of Interest

SGAS, one of the potential selling agents in the offerings of Notes, is an affiliate of ours and, as such, has a “conflict of interest” in these offerings within the meaning of FINRA Rule 5121. Consequently, the offerings are being conducted in compliance with the provisions of FINRA Rule 5121. SGAS is not permitted to sell Notes in any offering to an account over which it exercises discretionary authority without the prior specific written approval of the account holder.
